

In the trial 111868, graduated to the state of IL supreme court/ on their date may 25, 2011

This court denies: any and all contractual obligations as were set into motion on the day that I entered the facility called provena: and specifically and without any cause for misconception **I did ask for a distinct service** to be provided to me. **They said “Yes, we provide that”/** therefore I said yes. Received their service in realistic terms aside from the doctor in attendance who deliberately chose to humiliate me/ disrespect the necessary dignities of life such as were described in this encounter.

I went to court, because **they changed the contract: I agreed to one type of service (which their worker stated they had)/ they charged me for a completely different service,** a visit in the emergency room. While it is true, I knew I was in the emergency room/ it is also true, I had no clue if they run their alternate program through the emergency room or not. Not my job to know. It was my job and I did my job, to indicate NO, I do not wish to visit the emergency room. Yet I am charged.

The courtrooms of the state of IL hereby declare: contractual law to be null and void/ the obligation to do as you agreed to do. Proves nothing more than here say and fantasy, to the court; unless “you happen to be the rich man”. No such protection for me. The court thereby opens the door for lawyer theft, for the prostitution of those who do sell their soul, and the failure of people who believe that money makes them my god; it ain't so. Now they get to do anything they want to conceive of/ by the enforcement of thugs, “the police and prison system”.

Used against both contractual law as is on my side/ which the court denies. And against constitutional law as is my GUARANTEED RIGHT as a citizen of both state and nation/ which is treason: the deliberate act, to undermine and destroy the foundations of society from within.

Because they win the prize to claim any amount of money they choose, does not mean this battle is done. It is not/ I will be demanding legitimacy in the numbers, but having lost because the law is discarded by thieves/ that only means they will charge “thousands more”; for a fifteen minute hospital visit; and the lies, “this is what it will cost”/ defined by the category of care.

The battle is not over with so simple a transaction as traitors, in the court. If the law does not rule the nation called democracy/ then traitors rule. A traitor is one or a group of people who believe they can/ do/ or will rule over you; while pretending to be in compliance with trust and truth. Thereby on your side, as in we are all in this together; a nation of one life served by the law. That is clearly not true in this state of IL or this nation. Rather compliance with the law is not only discarded; by choosing against me and letting not only the law die, but creating the disease to kill the law which is guaranteed to each citizen a war is created against the nation itself. That is, A TRAITOROUS ACT. The dismantling of law is a disease. The failure to respect and obey the law that governs our lives, means YOU, ARE A LIAR. The demand that those who are illegally attempting to take over society and steal from its members; should be and are given authority to use the police and prison systems as a threat to steal, or incarcerate during any lies that assert contempt, or any other method of cheating

society itself; are a war against us. **If the law does not rule/ THEN THE THIEVES/ LIARS/ FOOLS/ FAILURES/ AND ENEMIES DO.** Any assumption a uniform gives you credibility or right/ is a lie. A black robe in this case, as is consistent with a judge; is nothing more, than proven to be the gang colors of organized crime. We wait to see, “the thin blue line”/ and its use of force to encapsulate and control humanity. Asking the question: just how close to “Nazi SS” are we?

The battle for FAIR PLAY in terms of healthcare is not so simple as, winning or losing; the merits of justice/ don’t allow liars. Justice asks for peace, harmony, and truth to decide.

While it is true in terms of political, social, or economical change, that I live among the laziest/ greediest/ and least caring people in history; we can’t change nothing/ “lets all escape into wealth”. It is also true this occurs ONLY because pride (*I can make you a loser*), power (*I can change your life*), selfishness (*you mean nothing to me*), and the force of money (*I can take your job/ your house/ your family/ your life, and throw it away*) and experts (*no one challenges me/I have an army, “we are like gods”, to you*); have made them afraid of their own nation. Thereby pushing this people with experts: (*you can’t defeat us/ we are the army called university*), “into the box/ to make them deaf and mute”. With a media to prove, what we propagate because of money, power, or pride, shall control your lives.

But take a look around, and see clearly for once all the tragedy, disgrace, disrespect, failure, foolishness, LIES, STEALING, CHEATING, arrogance, and coming HELL. And ask yourselves, “do you really still want to believe in satan”? **They didn’t bring you “heaven”!** Did they? With a list of

true threats that can exterminate this entire world. Where is your mind.

This is A courtroom in defiance of the law, the reality of democracy, and all sense and assimilation of justice, equality, fair play, or right....is not a government. It is a liar! Because if the law does not rule/ then this ain't no democracy. That is the price of democracy: YOU DON'T rule, the law we create and guarantee for ourselves, does.

It is also true, with absolute certainty the entire healthcare system is ready to crumble into pieces (*as is this nation, do to liars, thieves, and cheaters*). That leaves all without healthcare unless you are indeed "the very rich". That leaves the rest buried in hate/ with only their guns for comfort and revenge. Unlike many area's of all the hatred coming; the abandoned and disgraced turned away from healthcare, will know who to hate. But even so, it will only be a short time, before all of healthcare is in ruins. Without antibiotics, just like the past/ there will be no operations or surgery, and little relief from the diseases you changed to make pandemic. And for what, "hell, I saved two cents on my food today/ lets throw it all away". Shame on you. Liars/ cheaters/ & thieves.
