RE: THE legal DEMAND FOR ENFORCEMENT OF RULES AND LAWS as are  
applicable to this state and nation. With regard to the corporate entity called:  
United Feeds of Illinois/ Indiana.

### **SUPPLEMENT TO THE BRIEF**

The functional analysis of this trial, demanding from this our government  
the intervention between business/ industry/ agriculture/ and the needs of all  
humanity; as is established by the foundation of rights associated the constitution  
both state and nation. With regard to, the impact of people who choose to  
trespass against us; for deliberate greed, "I want more". Thereby discarding the

reality of: their invasion of our lives/ our environment”/ our needs being cast aside simply because they want more. This trial seeks a boundary: that then, Does determine what the future of our state/nation, or world shall be. The simple truth identified as: “OUR RIGHTS, not just yours”. Fundamentally creates a trial beyond the findings of the governmental employees listed above. Thereby realities of protection under the law: finds for the sake of our lives, our future, and our environment the need to establish by REDRESS OF GRIEVANCES. An opportunity for all citizens of this place to define for themselves as a democracy the limits: we will accept, for life or money. It is our right, not mine/ nor people to vote for me: but as a society this shall then define living in this state or nation. This is not fundamentally about business or economies. This is functionally about the choices between: **life or money, as a society**. The question, Who or what is more important: greed or life/ environment or consumption/ a future or killing everything on earth: are all fundamental to that equation? That is the question. It needs an answer today, because the ability to impact so much more, than in the past proves it cannot be delayed. Redress of grievances by both state and national constitutional right: shall provide the answer/ it is the right pronounced by democracy. **OUR RIGHT, AS WE THE PEOPLE!**

Because this question represented by this elevator and this community, and me, exists **ONLY**: because the tiny few who own the elevator caused it to be so, in their own aspiration’s to be “bigger: to take more for themselves”. Regardless of the impact on our lives/ my life. The power to influence my life/ our lives is clear. That is not “a felony”/ in the games men play. **But it is “a felony trespass” on our lives, when the impact of their games, becomes the reality of what we must endure simply because they want more. I am paying, for their greed/ they use, abuse, & take my freedom; thereby my life away. Because they want more money, more pride, and more power. Not a game** for me/ an unjustifiable impact. The same being true for all those affected, within the environment they created, which we cannot escape. Greed is a game/ it is not about survival, it is not about society: greed is about power/ pride/ and selfishness. Greed is about robbing others, so that you can have more. How is that “democracy in action”? How is that freedom, when it imprisons me with environmental consequences & changes my life/ because of their actions. There is no constitutional right to greed, only the right to participate for the benefit of society and yourself.

Redress of grievances: is democracy in action/ or more simply as **WE THE PEOPLE!** We do, own everything, as we the people **CAN** change or demand

society shall be, as we see fit. Our lives/ our government/ our decisions; not a ruler in sight: OUR CHOICE as a state or nation. As WE THE PEOPLE! Therefore we decide for ourselves, one citizen equals one vote. Keep it simple and plain, A DEMOCRATIC REALITY. Redress is a choice of the people/ they decide. But every educated decision requires the necessary knowledge and understanding: consequently our employees are responsible to us for truth.

There will be an attack of people who claim, “this is against democracy/ this is an attack on their freedom to pursue wealth by any means they desire”. **IT IS NOT TRUE! This is the essence of democracy, the very foundation of what it means to be “WE THE PEOPLE”/ the OWNERS of this place!**

In democracy: No allowance is given, to discard the rest/ to use, abuse, destroy, or threaten the others: just because you want more. WE WANT MORE for our lives, than to be inundated with your noise, and the reality of what you did to us/ what any other chose to do for money, **that now costs us our freedoms, our rights, our environment, and by that effect essentially makes us your slaves!** This by the fact “you say”, we have no choice.

Democracy disagrees; regardless of what our employees say. WE THE PEOPLE HAVE RIGHTS, WE OWN THIS STATE AND NATION! No exceptions: **it is treason to suggest otherwise!**

With regard to this situation, established by this trial: the right of redress is “to contain the boundaries of greed/ to stop the invasion of our lives/ to transform the reality of “their work” **to best practices for all our lives/** and to make them stop taking from our lives, to pay, for their greed.

With regard to the money involved, the fact some will demand “consumer prices shall go up, because of this”! I suggest you look instead at the truth of where you are as a society today: 1 trillion dollars, is equal to 100,000,000 workers, EACH ONE forced into debt by their government employees: owing \$10,000.00 each and more for just last year. Our federal employees alone spent over 1.3 trillion dollars last year/ add in what the state and local government spent and it is well over 1.5 trillion for just 2010. Or more simply our employees spent \$15,000.00 per each of one hundred million workers last year. With a tax extension they declare we get 850 billion dollars more, for this year/ and they intend to spend 1.2 trillion dollars for 2011. That equals an addition 2 trillion dollars altogether, or twenty thousand dollars additional debt for 2011. In two years they spend \$35,000.00 per each of one hundred million people, the census states 309 million citizens: or for these two years time, our federal employees

intend to spend \$35,000.00 per one out of three of us; baby/ old/ prisoner/ etc. THEY DON'T intend to pay it back! THEY DO INTEND, to take everything away.

Just the US federal employees in this year alone expect to spend no less than 3 trillion dollars. That equals \$30,000.00 per one hundred million of us. In a nation of 309 million, it is essentially thirty thousand dollars per one in three citizens. And that does not include state or local debts. It is too late to worry about expenses. **IT IS TIME TO DECIDE FOR LIFE/ before we are dead!** the money has been taken away.

Therefore my suggestion to you is in redress trial, CHOOSE FOR LIFE/ because you literally have no money anyway. Just a fact of life: "its all monopoly money". But remember this: SOMEONE is getting these numbers! SOMEONE is spending these numbers and expecting our work! Or more simply, "the rich man" is getting these numbers/ putting it in his bank/ and buying everything in this nation, one foreclosure at a time. "Its his game, you know: to own everything/ to make you a slave". **But its our lives; DO YOU STILL WANT TO PLAY THIS DAMN GAME?** The end result is we have nothing left BUT GUNS, FIRE, VIOLENCE, AND REVENGE. **STOP the game/ choose life first! Demand redress and make your decision.** Remembering WE DO, have to live the result, no matter what you choose. There shall be consequences!
