DATED: 12/ 2/ 10

CASE #:

Brief

The consequence and reality of taxation is: the people MUST receive their due! In other words, being protected from thieves (we have been robbed, by our employees)/ being protected from unfair practices: we are lied to everyday in relation to money (we are bankrupt as a state)/ banking (I was charged a ten dollar service fee for a bounced check written to me)/ advertizing (being led/ rather than being informed, is not democratic decision; saying everything is fine until a date far off/ does not make it true)/ politicians (corruption, the Illinois voter has been failed) / debt (more hides just beyond the spotlight)/ etc. Your job is to provide protection in the courts: I have not received that/ people I know have been abused by the court system (lawyers steal/ people are ravaged and raped financially in court); nothing resembling justice (when constitutional law is not respected), fair play (is not a judge or lawyer pretending they don't understand) or equality (the state employees/ particularly in education, get more than us). Lawyers have made, our courtroom, their opportunity for "legal felony theft", from the people/ NOT justice for the people. We the people are without defenses/ because they control the courtroom and thereby they control us. We, our economy, our resources, our environment, our nation, and even our world are threatened in many ways: even to the point of potential extinction from failures by our leadership;

particularly the university influence which gambles with our lives, our nature, our everything. Not a word from this our government designed and created, to protect and defend WE THE PEOPLE. Simply arrogance, selfishness, and greed.

Democracy primarily is: a contract between all parties to proceed in friendship/ throughout the various levels of government by providing from society, the common people who shall do our work as a state government. In other words: there are NO elite/ NO man or group of men shall be greatly powerful over the rest/ NO rulers/ NO judiciary shall be entitled to exclusive or separate advantages or privileges from the community (YOU must obey the law too)/ YOU CANNOT decide for the law, the law decides for you, equal as we the people: not more! This has been abolished by the university diploma, and we are proven to be surrounded by threats that they have made upon us.

The job of an employee of the people in democracy is: preserved by a firm adherence to justice/ the distinct reliance upon fundamental principles so as NOT to gamble with our lives. The distinct purpose to “make our world better, or at least do no harm”. To Accept that we are the owners, and thereby understand our rights as we the people are greater than yours as our employee. To understand the basic right throughout democracy as a form of government is: we the people, have a duty to defend ourselves/ to be defended by our government; thereby redress is the legal institution of our governing by which we deserve, design, desire, and establish control over our employees/ for the direct purpose of avoiding civil war. As an employee, your job is to remember, “you are one of us/ NOT different or special”. **To remember we are the rulers ourselves, we can enforce the law called democracy/ thereby understanding we are “the supreme authority ourselves”; all of us, not one or a few of us! But under constitutional decree.** Thereby the laws are for our benefit/ NOT our submission to your decisions. The right of trial is for justice/ NOT to be an example for anyone; rather FAIR PLAY, not a damn extortion by healthcare, or playground for lawyers to steal. NOT organized crime, where one is held, so that the others can steal, or inflict damage by the use of “legal thugs”. The elemental truth of a judge is, that you MUST be fair to all the people; treating them as equals/ by letting the law decide. The foundation of legitimate mercy conceive of JUSTICE. The search for freedom, the demand for redress is not your decision/ **it is your job to protect and apply: so that we the people are a true democracy.** The job of law is; so long as the others are not significantly harmed, as best we can. My property is just as important as yours, thereby we understand each other, by establishing equal treatment through due process of legitimate laws that do search

for justice/ NOT the vain, literal arrogance of today. The ability to communicate, with and too this public; as in this demand for redress SHALL be legally aided by the court/ as it is proclaimed necessary and true for the defense and sanity of OUR GOVERNMENT; thereby the press protected in the first amendment. Both part and parcel of OUR constitution, are a demand not only to sustain the freedom of the press, but support it with reality; just as their job is to support and defend this democracy and NOT turn to propaganda and greed (not protected), which they have done. The foundations necessary for defending both our state and nation as is consistent with all aspects of political, court, police, and military employees are these: ONLY what is necessary/ only when it is necessary/ only for the time required to attain justice for the greatest number/ and the individual; with fair play for even the least among us. With respect, for the disciplines of religion, whereby it is clear: NO harm to the public or this nation shall exist. YOU FAILED as employees of government/ thereby causing great harm to exist, and worse to come, if not immediately corrected; as with redress. Let the people understand with clarity, and decide their future themselves.

We are cheated by education at all levels: the University of IL has a 121 million dollar “football stadium improvement”; its purpose, used only 6 times a year, for those who call themselves the elite. Which we the public are said to be, indebted for. (Absolutely foolish and blind/ the insane proving their greed and power over us). NOT a democratic reality/ the consequence of fools, the reality of rulers who care nothing for the people or damage they do. The pension funds for teachers, & other public employees have claimed, **“what cannot be paid”/ taken what was never earned or deserved.** (That is not fair and legitimate/ that is separate and elite; special and above the rest) in other words you stole our money with your claims of superiority. NOT true, you are same. Unions representing public employees/ have proven themselves too powerful. Threatening, demanding, and relying upon the fact they claim: “we can do nothing/ because they are in control of government/ schools/ etc”. That is rebellion against we the people/ NOT a democracy, a traitorous act. We are the same, equals/ you are not more. We are lied to at every level “our employees spend and spend and spend, because they say they can/ regardless of the damage done to us”. Acting like kings or queens or rulers instead of those who must pay the bill, just like the rest of us. **We cannot pay your debts** they are simply too large; completely unfair, as almost nothing was done for the public; nearly everything went into the pockets of those who claim to be superior (we have a diploma/ WE MUST HAVE MORE;

cause we're special). You sold every future, every citizen into "the economic sewer" because of your greed, selfishness, arrogance, and insanity: the accepted delusion is enough/ let the fantasy control instead of reality or truth as life itself. We cannot believe in legislatures that will spend more than the money taken in no matter how large that amount is. A tax increase will NOT help/ you have proven that. We are Threatened by the university decisions to gamble with our lives/ mutilate nature/ and control everything: **THEY FAILED TO RESPECT OUR LIVES. GAMBLING WITH OUR EVERYTHING:** Even to the point of potential extinction for all life on earth; and we are, without the slightest protection from police in this. They hide. The political process is a sham, purposely driving people away from their vote, with garbage campaigns/ thereby stealing it. Altering democratic process: by the incompetence and failure of the state congress to regulate and demand of all politicians/ all elections: "ONLY the topics, which the state, county, or nation MUST address" **OUR BUSINESS/ NOT YOUR TRASH**, can be displayed in any public or private advertizing. General Political meetings remain the same, where people can ask or defend themselves. Criminals have been, and without doubt remain in this state government. Our water supplies are being threatened with pollution and failure to address the reality of threat, in all its forms. Toxic waste is being pumped near, if not in, the aquifers that sustain our lives; there is no going back. The great lakes are threatened with severe drainage (the salt mine that exists below the great lakes); a fact that could alter this state forever (cannot salt pillars "melt away"). Our lives have been altered by the consistent disgrace that Illinois government has become. And there are more truths, where critical and real improvements are required. Our vote has been reduced to: "take what you can get"/ rather than a public decision based upon relevant facts and honest accounting.

For this and more: the reality is, that according to the state constitution and the US constitution each declaring that redress of grievances; an accounting of government legally required by the people upon their employees/ wherein the court guarantees: TRUTH as best we can! With accuracy and severe penalties for lies: MUST BE GIVEN. REDRESS is the time WE THE PEOPLE "clean house and reorganize as best we can or desire to do". Therefore, *I claim it as the law that must be, provided to me. My guaranteed right as a citizen of this state of IL and this nation called USA. The failure to abide and protect the sovereign rights of this people, my own guaranteed inherent (cannot be taken away) rights: IS TREASON.*

**The demand here is: PROVIDE ME AND THIS STATE OF IL
REDRESS OF GRIEVANCES AS IS THE LAW.**

Without that guaranteed and inherent right of law to the people themselves, thereby proving this is a democracy of the people: THERE IS NO CAUSE TO PAY THE TAX!

As this is the power OF WE THE PEOPLE, to prove WE OWN this state, or this nation/ AND YOU, are in fact our employees. **There can be no acceptance of taxation;** by the people/ by me. **Either YOU OBEY THE LAW,** and provide redress of grievances/ or you fail your oath, condemn justice to an employee whim, and strip democracy from us. Is that not a treasonous act? Should this public not be enlightened about the truth: if our employees do not do their job/ THEN LIKE US, no payment shall be made. Thereby entitled, without representation as required by law: to establish our legal rights/ NO PAYMENT OF TAXES shall be made to you our employees until that oath, those rights, and that law is provided.

AS IS, OUR LEGAL OWNERSHIP OF THIS STATE, AND THE PROOF THAT WE THE PEOPLE ARE A DEMOCRACY. WE ARE THE OWNERS, AS SUCH WE DECIDE, if you failed to do the job for which you were hired. The RIGHT of ownership is ours. The beginning of our enforcement, **the truth of our democracy/** as we begin to take back our state or nation: IS THAT THE MONEY DOES BELONG TO US. Those whose work deprives or destroys this union of us/ rather than establishes our democracy are not entitled to be paid. Criminal consequence and penalties are deserved instead.

There is no cause or description that validates the need to pay employees for a job they either did not do/ or did so poorly as to produce threats/ the destruction of property/ a future pursued by catastrophe: or those who clearly rebelled against us as a people! For their own greed and selfishness. There is NO NEED to pay for consequences that can even take our very lives and future away. Either ESTABLISH REDRESS OF GRIEVANCES, or there can be no cause to pay taxes; beginning in the year 2011 and continuing until such time as you obey our right to rule over you. You are an employee. We are the owners/ **as is said to us all, WE SAY TO YOU:** IF YOU don't do your job adequately/ if you don't OBEY the law, and accept the duties required of you: YOU won't get paid/ criminal consequences can come. You are not rulers/ YOU ARE WORKERS, just like us; only with a duty, an oath, and a demand of employment that says "protect

us all". We are owners; the law of this land belongs to us! We want the truth/ we want better/ we want our money back/ and we won't pay debts that don't belong to us; even if our employees made promises, they had no right to make. That would be employee fraud/ not the people themselves, not for we meaning all the people: but for just a few, who call themselves "special", we are greatly indebted, by false claims of earned/ you did not. Consequently every pensioner etc, who would have claim against this state, or any business, shall make their case against the employees who committed that fraud. The people who did not protect this state or obey this constitution or the US constitution or accept any part of the dignity or proof of disciplines "for the people. That debt is NOT born by the people themselves, **WE DID OUR PART**/ YOU the employees of this state FAILED, not us.

THE DEMAND UPON THIS COURT IS:

Prove redress of grievances is real; AS THE LAW DEMANDS AND PROVIDES, **PROVE REDRESS: SHALL BE TRUE, FOR THE PEOPLE THEMSELVES.** AS THE LAW PROVIDES.

Or IF you fail entirely, we/ I won't pay: You have to steal it.. *{Although each and every one is required to file/ so that chaos does not reign instead of democracy.}*

WE BEGIN this tax revolt: with the critical analysis of the tax payment formed by this plaintiff in 2005: as the means and methods NECESSARY, to begin the dialogue/ that YOU TOO, must obey the law, protect the citizen, and identify critical threats to our lives. NONE of which to this date you have done. Hiding instead in absolute arrogance/ blind stupidity/ and utter greed, a selfishness so gross and detestable your actions admit by the evidence of your failure: as is that football stadium in Urbana IL.

LEADERSHIP ALLOWS, go ahead and kill the future, thereby assassinating the children: **DEMOCRACY DOES NOT.** Thereby to prove we the people shall not stand for failure. The court is required to prove what the penalty and interest shall be: For that single tax year, and the subsequent costs of trial, etc: PROVE WHAT I OWE! Prove how the people themselves shall be treated for their acceptance of a duty to enforce democracy upon our employees. Thereby translating for the people exactly what you intend to do to each one; that would join this tax denial, to prove we are the owners of this democracy. Show

them, your truth.

The full reality and consequence of your complete failure, to accept the duties and responsibilities/ justice and equality as has been set before you as leaders of this state of IL, is a decision. If you prove rebellion and traitor instead; none can truly see or control, what the people of this society will do. **I DO NOT lead/ I EDUCATE AND HELP human life UNDERSTAND**, the choices you must or will make; for the distinct purpose of all life on earth. Their choices, the people make themselves! But these are simple and plain:

Primary option A is: that the people simply “throw the bums out, and begin again”; by using the public courtroom and media our ability to communicate as a people.

Our understanding of democracy is: by UNITING, AS WE THE PEOPLE, they cannot control us. We are thousands to one or more. We will control them!

To identify and create a rebirth of this state. United for democracy means, **“YOU ain’t special/ we are, because we govern ourselves”. Thereby democracy means: ONLY THE LAW is allowed to rule! NOT any man or group of men or women; only the law, that we the people decide upon, shall rule over us.**

Justice exists, as the example of our employees, doing the best they can not only to interpret that law according to our desires (by instructions provided in the foundation documents)/ but insuring that the law protects us, by the instructions we have given in constitutional documents or other founding instruments of the people themselves, as are sworn protected by oath. Due process exists, by its connection to fair play and equality: by the truth of its intent to procure and define what is legitimate, free, or fair to us all; that includes assertions in equity.

The appropriate “battle-cry” is: THE LAW, applies to us all! Let the law decide. Let the truth: we are “the supreme authority” for this nation/ for this state, as we the people, become true. Let it be known: We, determine the punishment for treason, or failure/ by vote, among ourselves. There are NO RULERS HERE! Only our right, to govern ourselves: established in law by redress of grievances. Thereby demanding, NO TRAITORS shall rule, sell, destroy, or deny our rights, or damage our nation, state, community, nature, or future.

Option B, is likely to be civil war, because the people now know, “ YOU are traitors”. That could escalate into horror and hell/ imprisonment, cannibalism, and more. Do your job and retain government by the law/ keep chaos at bay.

Establish this redress of grievances so the people can have their say. Let,
Life and democracy continue in relative peace. It's a choice.

Option C: obey the law. Support democracy. Be fair, just, equal, and honest. For the sake of this state, nation, and world. Thereby discarding the influence of leaders, and letting the law decide. Find the communication required, to understand how best we the people can change our world, either with or without the leadership/ by constructing the laws we do intend to live by. The state or nation WE NOW OWN, by law. Therefrom becoming the democracy we say we are. The action required starts, Simply stop paying those who fail to do their job. Demand redress, or More simply, this is: should the leaders fail/ the people MUST take possession of their state, nation, or world. They have failed us.

Option C says we must then foreclose on the institution of government/ just like a closing school. No one is going to come and force the students out into the street/ BUT there will be NO PAYCHECK, for the teachers, etc; and that means they will abandon that school. Without pay, they will abandon government as well. We are the military, and everything else. We will decide. OR, We will stop listening to you. We will choose a different way and implement it; because in reality, we are the businesses, the customer, the money; we are everything as one nation, or one state, called WE THE PEOPLE. WE DECIDE, simple as that! We change, whatever we decide to change; because we govern ourselves.

There are no true leaders, only the law shall decide. **Those employed to do our wishes, represent our democracy, MUST obey the law.** Redress is the law! Their job is: help us understand how best "to form a more perfect union/ defend ourselves/ and protect our future; NOT gamble with it". Our lives are threatened/ our money, thereby securities damaged or destroyed/ our future is being annihilated.

It is the duty of our employees to protect against these very things, & That is surely true of we the people, in this state called ILLINOIS, it is our job as well. Any employee who refuses to accept that, becomes irrelevant, or criminal/ and will be removed. Prove me wrong! Prove constitutional law is not the true authority of this land! It is not an option, not an interpretation, redress is the law.

FIRST AMENDMENT REDRESS OF GRIEVANCES, in state court

IS EXPECTED TO BE:

After sufficient news and other media have been employed to provide the public with an understanding of what this redress trial means to them in terms of democracy “their decision, as owners: regarding accountability from employees, and the determination of their own futures”. So as to provide the opportunity to participate as jurors for themselves.

A jury composed of not less than 12 individuals whose job it is, to determine if sufficient evidence either by what is presented in court or by their everyday lives suggests that WE AS A PEOPLE NEED OR DESIRE to make decisions for ourselves, based upon the court proving truth in the evidence to be presented. Thereby an accounting from our employees is required, as to the truth, understanding, and reality of this situation within which we have found ourselves. Our future will be determined and decided; as best we can. Therefrom; Based upon the threats that exist, which can damage or destroy our lives, state, nation, world, or future. Based upon the existence of cause to believe “that adjustments” must or shall or should be made, by we the people. In order to achieve the stated goals of the preamble of this OUR government as is proven by the constitution. The decision for or against redress, shall be made.

Because NONE are exempt from the confrontation that this shall influence “my own life too”/ there can be NO allowance for a “jury picked from individuals”. Rather ONLY JURORS selected by random methods such as “lottery balls” for instance/ shall be allowed the position of declaring for the majority. If they believe: we should indeed have redress in the matters presented or as shall be added too, through the various county trials to come. Prior to subsequent full state trial. This process shall proceed, Through the different counties: This demand for redress shall be established, by not less than two-thirds majority in subsequent redress trial cases; throughout the state. Two thirds majority as is reached by the decision of _____ counties in affirmation: YES there shall be redress for the state. This majority, Rules the decision/ yes or no. Or more specifically, this redress trial, asks the people of this champaign county, within the state of IL, by jury trial of 12 : if they will ask the entire state to vote, county by county, on whether we MUST govern ourselves and seek redress. Demanding accountability from our employees/ protecting the future for these children and ourselves by democratic “we the people” actions. If they say yes, WE WILL have redress here in this county of this state of IL. Then it is expected and demanded that within the ____ alternate counties in this state of IL , there shall be

an immediate access and opportunity for trial under the same conditions, as this county has declared by trial, repeated in this state of IL. They people in independent counties may ask for additional issues to be presented/ but they cannot reduce the original cause presented. Redress trial shall be mandatory, throughout the counties, because the state of IL (in this case) demands it, as we the people. The people have a right. But the trial shall not go forward to full state adjudication, thereby full and impartial hearings, with accountability and full ownership rights: unless two thirds of the county trials agree: this shall be done. Let the people themselves serve notice on their county courts/ it is their duty: there can be more than one case across this state/ but NOT more than one case per county court. The majority decision, across all counties for the state; rules the outcome. There cannot be more than one, original court case (you may add to it, but not subtract from it) for the presentation of trial decision. That decision, with trial content goes to trial before the other counties. Every case is not its own, based upon this singular decision: either we go to trial as we the people against our employees in this state or not. Let each respective county be responsible for informing their people, the media, and for costs; it is the price of democracy. That the people of this state have this right to demand redress of this and hold their employees accountable is democracy; along with and in conjunction with, the state of IL constitution, and its associated US constitution governing all. State trial follows immediately upon confirmation of the people have decided for redress, there is no wait period. We the people have decided, there will be redress upon this land.

This is a democracy/ by the vote, and will of the people themselves! Our state as a democracy, means our decision; not yours or mine. **THE LAW**, says: I have the right to ask! Democracy says, the people themselves have the right to refuse. But the court HAS NO AUTHORITY, other than to obey the law. Our nation, not yours; as the employee. Our law, you cannot refuse.
