PLAINTIFF RESPONSE TO MOTION TO CLARIFY

ARGUMENT

In the paradigm that is law and truth, the essence of social justice. Establishing the framework that is then society at its most basic level of existence: refers to the fact without law, there is only chaos. That means for harmony and peace to exist, the future to be sustained; we **MUST** do our best to create and perform the law, by our truth as a nation, expressed in ways that honor reality..

This functional case for America and me/ establishing this, redress of grievances/ IS, a constitutional guarantee to each citizen of this nation and state! Which; Gives the judiciary no cause or reason for interpretation of a law that is plain and simple/ it is **NOT** discretionary, nor is it vague or insignificant. Redress, is the law of democracy, the foundation upon which we the people depend/ when all else has proven to be contemptuous, lies, or against this society; by the governing branch of our authority as a democracy/ the employees authorized to work for us, and make decisions within the confines of our declared written direction for the nation. Whether by true intent or not, that we as a nation, are failing: the critical matter before us all is the health and sanctity of the nation, in this trial the financial future itself of every child, and every life dependent upon our choice.

The constitutional **LAW** of redress, says: **If we arise as “we the people” under the law**, rather than with weapons/ to discover and perform our most basic test of ownership. The right to say no more of this, as we the people! Simply by our vote, for the nation itself/ rather than employees who work for us/ voting in our stead: then we gain the courtroom of redress. We become the owners as democracy allows. That purpose being: to **UNDERSTAND WITHOUT THE CONSEQUENCE OF LIES, DECEIT, OR FAILURE**; the truth of our economic lives. These, our employees **DO OWE** us all, an accounting for what they have done/ because the evidence is real, the cause is just. And every life including mine has been affected, when the reality of our currency comes under the question of truth. As owners, we demand the truth of our reality/ more simply we/ I demand the clear and certain knowledge of what has been done to my money, my future, my life, by the failure of our employees to properly adhere to the constraints and purposes of constitutional instruction! **OR MORE IMPORTANTLY**, it has come to our attention as the people of this state or nation: that the truth of what is or is not our securities, our work, our future, our nation, our lives, our everything **MUST BE KNOWN**. The trust is gone, which means **ONLY THE FACTS**, will do/ guaranteed in a courtroom as true.

These things called money, currently represent our lives/ my life and future. Therefore In its entirety, for the singular purpose of understanding the relationship

we must own with our future: because I like all other workers are expected to pay with our lives/ with the sacrifice of our time/ with servitude, rather than choice. If the money is bad/ I shall NOT spend my life working for it. If the money is bad (undeniably without a base or substantial foundation, in reality) then I owe NOT taxes paid to the employees who did choose to wreak and disgrace us all. **Redress means we choose to know the truth and decide for ourselves as a nation, the life we must or will lead.**

Or more simply, this case represents the legal right to demand: NO MORE LIES, TELL US ALL THE TRUTH, AND NOTHING BUT THE TRUTH. Reveal the entire economic structure and accounting for this nation/ its states/ and its citizens. I/ we demand to know it all, so that whatever can be done: as is bankruptcy (the return of our money from those called the rich) will be done. Life is not a game/ and we are not your toys!

Redress, the foundation of law in support of democracy itself, allows “we the people” to accelerate the legal question: DID OUR EMPLOYEES, disobey our laws? So that each may understand and form his or her own opinion as to the duty we owe each other, this nation, and these children: to protect ourselves/ if it is proven our employees rebelled; or just didn’t care enough to protect our lives or economic future. What we then do by vote among ourselves, as a nation: shall be our reward. Either the repair and rebuilding of a future/ or its demise and failure as a society. Because that, will be our truth/ NOT the reality of leaders who have forced us to fail.

That is by its intent, clearly the purpose of redress of grievances: that we should know/ through our day in court, the truth of our situation in this time; and then choose the path we desire. Rather than simply come to a day when civil war is imminent. Thereby the relationship we share with or without a future for our lives; becomes our own decision, as a nation. The review of our authority as a democracy, is established by bringing the leaders to trial and accounting as is necessary. It is not too much to ask/ it is the law. **This is about our lives, future, world, and children; it cannot be less than our decision. This is DEMOCRACY: “WE CHOOSE, to rule ourselves”!**

THE DEFENDANTS

Each defendant represents a critical participation by our employees hired to govern for us/ BY OUR DIRECTIVE: to respect the framework and direction of our government we as a nation, have provided: the constitution/ bill of rights/ and

declaration of independence. Not a game, an oath is required; because this is a contractual obligation. Or more simply we give you the right to lead, **BUT ONLY** under the true decisions and relationships produced as our true government: the documents which prove **OUR AGREEMENT, AND GUARANTEES: TO EACH OTHER.**

The defense argues, that agencies and employees of our government are generally entitled to “sovereign immunity”. Therefore let us review what it is they do claim: sovereign means, from the legal dictionary *“that which is preeminent among all others. For instance, in a monarchy, the king as a sovereign has absolute power, while in a democracy, the people have sovereign power.”* Immunity means, from a legal dictionary: *“the right of exemption from a duty or penalty....”*. From these true meanings of the phrase, we then understand that what the defense suggests is: that our employees are in fact our “kings”/ that they need not be responsible to us, nor shall they be brought before us for the things they do: because they are “the special people”. Unlike us, who must bear the weight of their decisions on our lives. But the word sovereign is laced with the alternative as well which states: **IN A DEMOCRACY, the people have sovereign power!** The defense then proves EITHER: Sovereign immunity gives our employees the right to be king over us/ or sovereign immunity as a people proves our employees shall be responsible to us, the people holding the power of **OUR DEMOCRACY**, as owners!

Redress is not judgment/ that comes later! Redress is our employees **SHALL GIVE ACCOUNT** to the nation for what they have done. While we all hope, that each employee will be proven to have provided this nation with “the best they could have done”. The reality of this day demands: **WE MUST KNOW**, what has become our truth. No more hiding, the truth and only the truth as our contract with these employees defines. Consequently I do not sue these agencies/ **RATHER I DEMAND** of these agencies: a clear and deliberate accounting of all employees hired by the people of this United States democracy: shall give account of themselves/ and then be audited to reveal the truth. That audit shall be conducted by the defendants chosen/ and brought to this court of redress by the people for their decision regarding the future of this nation. This is the owners/ telling the employees: **GIVE ACCOUNT** of your work on our behalf, that we may clearly see for ourselves. If you are for us/ or against us, the nation called America. These things provide the government called democracy with its authority called: “We do, rule ourselves”. As to the cost of running “the business of America”: there is **NO** business that survives/ that from time to time must have a thorough review of its financial position, a firm and clear knowledge

of what is owned/ owed/ or expected.

I am one man/ but not unlike an entire nation: does not the IRS come deliberately to investigate me, if they so desire/ to penalize me/ to charge me with interest and whatever they desire in a courtroom of law if they deem it necessary! The value of democracy is justice. The value of equality is: “If its fair for you/ then the same is fair for me”. Or more simply: I clearly have a vested interest in the financial realities of this nation/ I am clearly affected by our employees stealing/ lying/ swindling/ or conceiving of ways and methods by which they can hide the truth of what has or has not happened to the substance and value of the money: I SPENT MY LIFE to earn. To wake up, and find the numbers worthless/ IS NOT without a personal complaint and valid cause for redress and legal relief.

The functional reality of a courtroom that continually declares “this is unintelligible”/ searches for a place to hide. The oath of office says: you shall defend the constitution/ that law, called redress reveals, NO LEGAL RIGHT to run away or hide exists. Rather you agreed in that oath to do what the law requires you to do. Redress, is the law! The constitution holds jurisdiction over every other construction of a legal right/ over every office/ over every complaint/ and over every claim of immunity. The constitution SAYS NOTHING, about our representatives being immune from the guarantees proclaimed as law for our lives as we the people. The constitution takes away all intent of sovereignty by our employees and casts them as employees INSTEAD of rulers, who dictate to us/ rather than are obedient to the oath they declare to protect and defend us by our laws.

The constitution recognizes the office of the chief executive/ currently president Obama; as the primary representative of our employees (the CEO of our business called, the governing of America). The office, most influential in determining the decisions these employees created to affect our lives. Other presidents have affected us all, as well: therefore, the office or president; rather than the individual is summoned by redress. Those actual decisions are called political issues: **but this is a legal issue:** our right as owners, to be informed/ to choose for ourselves as democracy provides. To know and understand our relationship with our nation/ our future/ our world/ and ourselves, cannot be denied. We are the owners/ you, are the employees.

This is redress, the demand: substantial and real evidence of failure and lies exist. Therefore we have lost faith, with simply believing in our employees, and demand FACTS. Therefore we should know, and demand whatever must be,

so that we DO KNOW: “what is behind closed doors”. To see for ourselves what is true or not true/ fair and justified, or not. In this financial reality, which does impact and govern at least a part of our lives. Thereby the president is called to open ALL the hidden doors; all doors of government influence or direction. To show us, in this demand of redress: **the foundation of our economy/ those statistical realities**, upon which we all rely. To reveal our future, in terms of money, debt, and truth.

That means: TO UNDERSTAND, we must know all the debts of the nation, which does include personal/ business/ banking/...../ etc debts. **All of it/ so as to understand our relationship with the numbers as individual workers expected to pay these debts.** Do you not say, WE MUST PAY! OUR RIGHT is absolute! But we also demand to know what is or is not foreign investment and ownership within this nation: WE DEMAND to know what of our nation it is, that our employees have sold without our consent/ done without our laws/ or lied about because they fear us not. As is indicated by the word “sovereign immunity”: the assumptions or actions of a dictator, rarely serve democracy, in any form! Our financial lives: Which does include loans, pensions, etc; provided by our citizens so that foreign individuals or companies can own our nation instead of us: shall be known. As well as loans provided to us. More simply: **we demand to know everything financial**, in the most plain and simple terms possible so that all can understand the truth. You and the employees under you: will present that information and detail every expense, in everything you present, so that none can be fooled. PLAIN AND SIMPLE, so that we all know: is your job.

The president shall provide instruction and orders to reveal, every known and hidden resource or liability; personnel or employee of government; and anything else/ as would further our understanding of the whole truth, in terms of money! Of this nation called America. We want everything, simple and plain. As this is redress: as owners WE DO, HAVE A RIGHT/ it is our money & it is our debts. Thereby our right to know, without complaint is absolute.

Redress asks to know what the liabilities and assets of this nation are, with critical and real statistics and information: that does not hide the truth/ or in any way jeopardize a true understanding by the majority of what is being said. In other words: **make us understand our reality.** This is our government, and we demand it/ IF YOU PLAY WITH US INSTEAD, we will show you prison. You are, the employees/ we are the owners, we are the government through our constitutional documents: through our blood, bodies, sacrifice, and life lost. As is the true meaning of the word democracy: WE THE PEOPLE.

The defendant called the attorney general for this USA, is the legal representative over-viewing all the legal actions of employees in government, and beyond. Thereby the outreached arm of law for the nation that organizes the demand for the collection of real data, and the installation of justice, through the disciplines of truth and evidence/ as any courtroom must provide. Thereby he is responsible for the truth being presented to us, the people brought to testify/ the search to identify and create knowledge. The reality that none of our employees, or any other, shall be given the right called fifth amendment; **because we are a people in “public danger” and we NEED THE TRUTH.** Is absolute, Nothing less will do/ all will answer, to the best of their ability. All will experience the punishment most fitting LIAR, TRAITOR, THIEF, TERRORIST(intentional harm), or other; against this nation. If they fail/ the attorney general will enforce this..

The defendant called the solicitor general represents the human arm for collecting that information, or more simply the “pool of lawyers” commonly given the individual job of enforcing the law, creating the case and presenting it to the jury called “we the people”. By working through the courtroom and producing the reality of American justice, in government. The enforcement of legal rights and duties in a courtroom, belong to the judge. But the truth of a lawyer is either aligned with the purposes of justice, and nation; or it is not. We do hereby notify every lawyer: enforced by the potential demand of criminal intent: **“do your job/ demand and obtain the truth,” for this nation.**

The internal revenue service establishes the money of the people through taxation; by its collection practice. Thereby giving support and affirmation to those who have used our taxes to claim WE MUST PAY/ for whatever they choose.

That too is a political statement UNTIL the spending of our money/ becomes so grossly negligent, corrosive to life, and corrupt as to become the instigator of lies/ theft, and cheating. It is a lie to claim a debt is not inflation/ when it cannot be paid. A potential criminal offense! Therefore proof is required, that the debts being proclaimed are in fact legitimate and real/ NOT simply inflation **hidden from sight by the lie**, it is called debt. That is the job of the IRS: to find the money and explain the reality. **They are the accountants who do collect the money. DO THEY NOT KNOW HOW TO FIND THE MONEY?** Do they not search us? We do not want the agencies who spend the money guaranteeing their own numbers/ WE WANT PEOPLE who are suppose to search for the truth in money: with penalties against them, if they fail us: we are

the owners. The IRS employees, are NOT POLITICIANS per say, they are financial investigators. They work for us, & we own the numbers/ for this nation, good or bad. None can say, this is “private or beyond our ability or consent to investigate or decide”. That includes the military. WE THE PEOPLE shall decide! Thereby the truth of what we can or cannot know/ or can or cannot pay; is ours as a democracy in action. Once that knowledge is collected and identified/ there job is done. The IRS, SHALL perform the accounting, and establish their seal of accuracy. What we do or do not have as options generated by these assets and liabilities is ours to decide. The IRS may enlist contractual help if needed, & shall find and assist those who do/ by proving what is true or false: THEY ARE the guarantor. Because it is the IRS that holds us accountable; as we the people/ therefore it is the IRS that we hold accountable as to the information we need to know as our reality in currency, HOW MANY DOLLARS exist/ debts/ pensions; EVERYTHING: the “promises we THE PEOPLE are expected to pay: Our employees made against our lives”.

There will be penalties for failure to properly do your job, and report these numbers. Is that not so/ is that not fair, or equal treatment? Every dollar DOES represent the life, work, ability, and sacrifice of an individual/ with the resources every child must have to survive in the future as well. Every dollar represents a portion of my life spent, for someone else/ potentially STOLEN, by lies and failure of our employees in government. It is not a game. Actions taken by our employees which fundamentally deteriorate or destroy the ability for this nation to survive or function in the future: IS A WAR, against me, and against us all.

THE LAW

Article 1, section 9 number 7 of the constitution states ...”*a regular statement and accounting of receipts and expenditures of all public money shall be provided from time to time*”. Or more clearly because it is our employees that have brought us under disrepute, and suspicions; by the evidence conferred as an era of doubt as to the truth of anything they say/ or the wisdom of anything our employees do: **we NOW want to know everything.**

For easier distribution: put it on the internet and let us see where the money has been spent in its entirety, along with ALL summaries fully explained. And where the money will literally and physically come from to pay these debts. That includes the impact these decisions shall have on the future of every child: because without resources, we all die. The debts of an entire nation/ every state/ and every reality of life in America necessary to obtain a clear & full view of

reality. Is the demand here and now. No room to trust exists: WE WANT FACTS, STATISTICS, EVIDENCE, AND SWORN TESTIMONY under severe penalties of law/ you shall NOT lie to us. The truth, and only the truth, NO hiding/ no refusal/ no limits as to how far back if the people ask for clarity. REALITY REVEALED!

These defendants who do represent the official capacity for creating such detail and the examination of facts/ opening doors and compelling people to obey: are sued, by this democracy under redress of grievances: for that purpose, as is consistent with their relationship to the constitutionally provided office they do hold for the people. The oath sworn to protect and obey the constitution itself/ thereby supporting and defending democracy: which literally means, WE THE PEOPLE RULE OURSELVES/ you are the employees.

Article 1, section 8 line 2 *allows “to borrow money on the credit of the USA”*. That is the law: Yet this does not allow for the limits of that credit to exceed what will be, OR HAS become a reality that bankrupts us all. In NO possible interpretation does the constitution provide that right.

The legal argument begins: WHERE THEN, IS YOUR RIGHT by law, to bankrupt this nation? A legal fact that must be established! If we are bankrupt or not, shall be established, in a courtroom. Those responsible, do have some immunities/ if their actions do not prove a clear intent to cause harm or establish a treasonous result. The penalties, or possibilities for that are decided by the people/ after the facts are discovered.

Because bankruptcy means: our employees, now pay us with nothing but numbers/ our members who trusted you, are liable for your actions. The reality of currency itself, MUST be proven with or without substance. That is a fact, relied upon by the numbers which represent a consistency of “a defined value/ per dollar/ per worker”. It is the worker, that represents the money. It IS a theft, a lie, and a swindle of this people; if proven the numbers represent only fantasy and delusion/ a ridicule of our work/ a disrespect of my value as a worker. Where is your constitutional right to treat us all in this way/ to steal the value out of our money/ our expectation for the future? Prove the constitution does not forbid it.

Article 1 section 8 line 6 establishes “provide for the punishment of counterfeiting securities and coins of the USA”. Reality states, if proven bankrupt: OUR EMPLOYEES, have been counterfeiting our money. It is a lie to call inflation a debt/ it is criminal intent to use that inflation in subterfuge, to buy our property, withholding common knowledge that we are cheated. Or more simply this is inflation/ and we don’t get to participate! If the numbers of our currency are proven so extreme, that no possibility of payment for these debts

exists; by the expectation of the people themselves. THEN it was counterfeited and stolen. Payment for our work became a lie, and our money (as life and resources sacrificed) swindled from us; over years. There must be a punishment for that/ it is our working lives you stole, our families and future, you influenced. Let the people decide for themselves. By vote.

Article 2 section 1, line 7 states the oath of office of a president: **he contractually agrees “I do solemnly swear...and will to the best of my ability, preserve, protect and defend the constitution of the USA”. Or more simply that is his true job!** This legal redress of grievances according to the first amendment/ according to guarantees given to me by the state of IL under their constitutional mandate for redress of grievances, REQUIRES that this president be involved and directly responsible for the gaining of information and the presentation of justice as the people do so demand of his position called president. Each of these defendants, and whosoever else may be required, given that same demand. That is the job of every employee. That is the right of owners, to be informed by the evidence and foundations provided by truth: there is no excuse.

Article 3 section 2.1 “the judicial power shall extend to all cases, in law and equity, arising under this constitution...” **Or more simply there is NO GREATER CASE, in legal or judicial terms than is the matter of constitutional law presented/ and the entire foundation of currency or asset as is this matter of debt for a nation.** The potential called LIES, against this people: which defy our direct intent for truth & knowledge: as owners of our nation, future, and lives. Is not a game! Behind, “closed doors hide the truth”/ therefore the employees most likely to open those doors are assigned that duty. Justice is not a game/ it is the foundation upon which we gain the knowledge necessary to protect and defend our own lives, our own nation, and our children’s future. It is our right, guaranteed to every citizen, including me.

Does not the essence or wording of the preamble to this constitution declare THIS SHALL BE SO! Indeed it does.

Article 4 section 4 “guarantees to every state in this unionand shall protect them against invasion”...

We have in fact, by the most visible evidence: been invaded with counterfeit currencies (an inflation called a debt/ IS A LIE). But even more violent against our democracy is the taking of THESE claimed debts to make a tiny few rich. Access is denied to the masses! Access exists only for a tiny few to these numbers/ which become our debts. Whereby those with access, in

turn: have been buying up our foreclosed properties, which the failure to regulate provided. And they hand “we the people” the debt! With our own money: due to the failure of our employees/ this entire nation is being sold from the people, to the few. **In FACT: by the actions of our employees, these few have or shall soon turn this nation into nothing more than “rich and poor”/ they own it all.** We will have nothing, because we cannot compete with people who get “tons of free money”. With the reality, WE/ are given the bill for this. These are the debts YOU THE EMPLOYEES gave us/ the nation you stole from us: by producing numbers so fanatical: that the few, could steal our homes, our lives, and our future.

All the stimulus money and every other kind of “investment” created **HAS NOT ENDED WITH THE PEOPLE.** There is no such thing as “trickle down economics”/ that’s just a con game. Capitalism is built on supply and demand/ NOT invaders, who take our money, and give it to the rich.

Instead of helping us: this money is given to the rich/ they multiply it in their banks by ten; **and with that free money** (we are guarantors for), they are taking everything from us. A fact clearly establishing an invasion/ clearly NOT within the intent, oath, or purpose of democracy. It is a treason; because Our lives, and our nation; are being stolen. Prove it is not so. Being wrong is not traitorous/ did not the rest commit to it as well. But proving failure and refusing to protect and defend this people instead, IS TRAITOROUS. Or in more correctly legal terms: there is no action/ no grievance supporting discrimination against we the people greater than this. Our wealth, our homes, our working lives, our future, the children and the nation HAS BEEN redistributed to those who call themselves “rich”!

Article 6 line 1 “All debts contracted and engagements entered into....shall be valid against the United States under this constitution”. That “demand for a balanced and real budget”/ has not changed, as a purpose of the constitution, the law that governs our nation.

Or more simply this nation shall not steal, but do as it has declared it shall do, is the constitutional mandate, or law governing the use of money in this nation. **The fact however;** is our representatives have failed to abide, by this law. And they held the doors closed, so that we cannot see. Because they call it debt instead of inflation. Proving of themselves, by those who participate directly; to be without honor.

This redress of grievances seeks to prove: WHY did our employees fail to obey this law? This redress of grievances sues the office holders of our governing body of employees: our contracted business agents, to do the work we chose for them to do/ under the direction of the constitution. ***So that they shall be forced to do their job and report to the American people the true and accurate state of affairs,*** that this nation has become. Review of the accounting claimed by employees is common practice/ we are the owners, these are the employees.

Article 6 line 2. “This constitution, and the laws of the United States which shall be made in pursuance thereof; and all....shall be the supreme law of the land; and the judges of every state shall be bound thereby, anything in the constitution or laws of any state to the contrary notwithstanding”. The clear demand: ALL, SHALL OBEY THE LAW! Including every judge, there is no interpretation otherwise, you shall obey the law. Judicial review of every legal proceeding is required to assign and assert: ONLY THE TRUTH/ equal and fair to all.

Obedience to the constitutional first amendment called REDRESS: is NOT discretionary/ it is the law. The law rules this land/ not the judge! Impediments NOT conducive or forthright with the purpose called justice (as are many rules of the court)/ are hindrances thereto, and ought not be done. Assertions of ignorance, or frivolous, or other without merit: are criminally contentious/ because such statements seek to reduce or destroy the guaranteed our constitution provides to each and every citizen. This redress trial seeks the specific review of all financial activities of the entire federal organization called the governing bodies of this United States of America. Because you have lost our trust/ you have removed my trust. That is impossible to restore, without a true and real accounting. That makes the defense of this nation irrelevant, IF THIS IS NOT, our true democracy built upon the foundations of truth, trust, reality, and respect for the people themselves. THAT is a true injury impaled upon this nation and its people. THAT IS SO REPUGNANT and vile against the nation itself/ that we the people deserve to participate as equals, with me, in this trial to gain and know the truth. Thereby opening the doors to rebuild our reality, as truth. NO MORE FANTASY/ NO MORE DELUSION/ NO MORE EXPERTS: we will decide!

Amendment 4; demands “the right of the people to be secure in their persons, houses, papers, and effects against unreasonable searches and seizures shall not be

violated...”

The evidence of financial devastation at the hands or because of the hands or as a direct or indirect result of our employees hired to do the work of regulating and governing the work of our nation is absolutely clear/ and needs no further evidence applied. It exists in everyday language and talk throughout the nation. The end result of this truth is well known! Either someone has to pay/ or every debt and the people who earned the money: **WILL BE LEFT BANKRUPT AS WELL.** That is of personal interest to us all!

We are attacked by debts which cannot be paid/ by lies which hide inflation so that **THE VALUE** of, all our property can be stolen/ a future is being lost, a nation is being destroyed. And a reality called weapons of mass destruction prove we have lost control of our lives, and future. Because the only use for these weapons is **TO KILL US ALL.** **NOTHING ABOUT THAT** IS **DEMOCRACY:** A truth utterly repulsive within the intent and purpose of this constitution for this USA. In other words not only is our right to redress financial, but does extent as an actual or imminent injury or death/ for us all. **OUR MONEY IS OUR FINANCIAL LIVES/** just as my money is a result of my time and efforts surrendered for someone else. I/ we have a personal stake in the outcome of value, as is the truth called an American debt or currency or claim of responsibility. When you fail/ you cause us to fail. When you refuse to obey the law and steal the value out of our money/ that is fraud against the American people, at a minimum.

Amendment 7 “in suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved....”

This redress demands a trial by jury: **WE THE PEOPLE**, are that jury, as the constitution provides! Redress focuses the controversy of evidence/ the question and reality of **OUR financial TRUTH** as a nation: upon our employees of government who have by all appearances failed our nation and our lives.

This controversy extends to all citizens. This controversy by the evidence clearly available **IS MORE THAN SUFFICIENT**, to demand a courtroom and deliver a decision called truth. Let the employees prove it is not so/ let them prove what is true. So says redress of grievances/ the final anchor, in times of perceived crisis, that provides the power of democracy: **the people themselves shall decide. They shall rule, the outcome! What has become our slavery to “worthless money”/ shall end.**

Amendment 13 demands we shall not be slaves/ but if we are paid with worthless

numbers; hiding the fact we are bankrupt. THEN THAT is exactly what we are. Because at any moment of time: everything called currency, because it has no value do to inflation: can be recognized as worthless/ and thereby be taken away. Exactly as if it had been stolen in any other way.

Amendment 14 the equal protection of the law, as is redress in proclaiming our ownership of this nation. The subsequent the reality of an oath as is sworn to protect our nation: by demanding from our highest ranking employees their contractual agreements to defend the constitution above all else. Understands there are no excuses. We have standing in court. We cannot be pronounced as less than true participants, with an honest and real complaint. That is within the law/ the purpose/ the guarantees/ and the foundation of ALL federal and state laws. THIS CONSTITUTIONAL LAW called Redress is the law/ for this land: it is the defendant that must prove somehow my claim to the law guaranteed to me, and to each and every citizen: is somehow outside the jurisdiction of this court. That is impossible, because it is constitutional law. One of the inherent and undeniable foundations created for our independence, for our defense as a society unto ourselves as rulers: for our lives and our world/ by our design. Redress does not allow, for my personal decision. Rather it's implementation in this trial; must go through the process of states and juries as outlined to create the specific demand called WE THE PEOPLE, do declare, we shall have redress here! That is not generalized or personal/ that is democracy, sufficient and valid; to cause our authority as a nation to be realized and obeyed. Thereby the case of redress, must go forward, as indicated: which is the process of calling for an accounting/ by our decision as a nation, state by state. Until the decision of this people has been realized. No excuse exists to refuse/ the reality of our situation needs redress NOW. Or treason and open rebellion against our lives as a nation: has been proven without doubt.

This is not a game/ is there not more of the direction and purpose and power of the people; as is our declared government (OUR AGREEMENT, THIS IS WHO WE ARE) in the declaration or independence and bill of rights?

Without doubt there is, but the need for them here does not exist. The law and constitutional decree in support of that law; which is the preamble to the constitution itself is more than sufficient. It reads:

“WE THE PEOPLE of the United States, in order to form a more perfect union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of

liberty to ourselves and our posterity, do ordain and establish this constitution for the United States of America”

This is our government, because the words identified and proclaimed what the people were willing to, and DID die for. This nation does not exist without them/ this constitution and its companion documents, are the government we agreed to. The constitution which guarantees to me and to every citizen, **the guaranteed and inherent right of first amendment redress of grievances IS THE RELIEF I SEEK/ AND THE CLEAR JURISDICTIONAL STATEMENT: proving the court cannot deny.** Only the people can, in their respective trials and arguments from state to state/ until a majority has formed, to declare yes we will bring our employees to accountability or not/ by our democracy, for ourselves. That is the power of democracy! That is imminently within the scope and purpose of the constitution itself. That is fundamentally the purpose and power of the judicial branch, within a democratic government: it is the law!

Democracy is, a cause of action unto itself:

“ Which then gave the people their hope, and their acceptance within the truth and possibilities of dying, sacrificing life and family and body or mind. For these specific rights and protections as defined by law/ instead of power and a gun”. Democracy is the hope and purpose: we shall rule ourselves/ and redress is the law which grants ownership, in times of crisis. We are in or near crisis/ that undeniable fact, presents this case beyond the conception of “me, an individual”/ and creates it as: we the people, a citizen standing in the law, for this nation.

For the simple and pure intent: Give me, give US; a life freed from tyrants! Or more simply: Those described by the words “who were always stealing their money/ lying about reality/ and cheating them out of their property and right to defend themselves”.

Gee, “I wonder what sounds familiar about that here and now”? Want to guess. I challenge you to claim this is an “abstract recitation”/ over dead soldiers!

CONCLUSION

WE MUST LEGALLY PROTECT OURSELVES!

Arrogance is never wrong in the mind of those who call themselves powerful/ until dead.. The financial crisis of this day is plain and simple. The new expectation of increased debt for 2011 is \$1.65 trillion dollars/ divided by 100

million people that is \$16,500 per each one of 100 million people. BUT more interesting than that is the claim of an federal economy which declares JUST the federal employees shall, take/ borrow/ & spend \$3.7 trillion dollars on our behalf: which equals \$12,000.00 per every single citizen of this nation. Take a look at your family/ your workplace/ whatever and KNOW: a tiny few people have decided, that they will spend your money, “because they know better, than you”. Is that not communism? The question is: does a 14 trillion dollar GDP represent a fantasy or not? **14 trillion divided by 309 million people** (every US citizen) divided equally= **\$45,307.44 per each baby/ prisoner/ elderly, sick, unemployed, ETC.** TAKE A LOOK AROUND you, and ask yourself if this is real! If real, consider the resources being lost/ the future dying before your very eyes, because without resources we are dead, and so is your child! If it is not real, where does the delusion begin? Who, is responsible for counterfeiting these numbers? One large answer is: that “wall street” creates its own counterfeit money/ with margin buying. Buying on margin means: give us one dollar, and we will let you buy ten dollars worth of stock (inflate the pyramid of our schemes). Or more simply, the stock market creates “its own money”/ which it then uses to pay its bills/ increase its value/ and influence business and industry as if it were US currency. Unlike a normal gambling casino, that counterfeit nine dollars; affects business, securities, real estate, and investment throughout America and the world. ITS NOT “real money”/ which means, then it has to be “counterfeit”.

There are consequences to taking back our democracy. There are realities of economic turmoil that we cannot avoid. BUT THE TRUTH IS, unless we deal with this before everything gets much worse/ while we still have a chance to resurrect ourselves from complete chaos: We won’t survive. That is an injury we CANNOT afford to accept. Once past the point of no return, chaos as in civil war/ as in violence and rape/ as in a government torn into shreds, because no one is listening/ as in the police and courts are worthless, because no one believes in them anymore. All come, and more.

There is no more running away; if you want this nation to survive! Its not a game. This is a trial to begin the process of WE THE PEOPLE, will be returned to us. We, Shall decide for ourselves. Nothing more, and nothing less than truth and democracy is a short and plain concept of what the court can do for me/ and for us. This lawsuit cannot create economic harm or other, because it is NOT powerful in or of itself: this lawsuit can only demand truth and accountability. The consequences of that, have been determined by others over decades. THIS lawsuit represents OUR DEMOCRACY, As the legal power residing in the law called redress: to assert ownership/ and do what needs to be done, when our

employees have failed us. Whatever comes beyond that, is entirely the truth and consequence; **of choices YOU or your leaders have made.** Not me. I simply choose, to believe in democracy and law. **I simply demand the law, that our constitution provides.** Your reality, your choice and decision establishing what you will do with that; is your own. You earned the crisis/ or your leaders bought it for you; you must earn the solution and resolve to let truth decide to fix it: one or the other. This court is the way. That is your decision, I have spent my life working for better; saying to many: “we will all have to pay for these decisions”/ and none cared. YOU have brought yourselves, to whatever trouble can come. YOU WILL decide for yourselves, if you desire a future as life or nation or world; or not. That is something only: **we the people, as a true majority can give to ourselves/ by the choices you will now make.** Every vote means something! USE YOURS WELL.

Understand this as well: IT IS the responsibility and duty of a judge, to adhere to the law/ and provide to me this constitutional demand our agreement as a democracy forces him to accept. Because the law demands it, not me or the judge; this is not a game/ it is the law. That means a judge who accepts the burden of being servant to the law, IS ACTUALLY immune from the consequences that law creates. It is the law that decides, not a judge/ UNLESS he or she fails to obey the truth: **our laws, ARE our rulers.**

A population is never secured, unless they defend themselves. Redress is that law, “OUR DEFENSE”/ without weapons. Created and maintained so that war need not come. Redress, is our civil disobedience, against those who would rule our lives instead of serve us/ it is our return to democracy, against those who have stolen it from us. Without weapons of war: to preserve and return this nation to the path we have chosen for ourselves: THE LAW rules us/ not people. In more simple terms: that, is called
DEMOCRACY!

Procedural question

The path most conducive to establishing, the base requirements of a judicial oversight/ during this redress; process of democratic actions: as is the need to create “majority rule, by federal court jury decision”. OUR MANDATE of democracy, to the judiciary of this UNITED STATES OF AMERICA, or any individual state is: One of procedural certification. Of this question, and its

answers: created and established by jury decision, is in part the need to follow constitutional protocol. Which means: **Redress by law is: WE THE PEOPLE! Neither me or this court/** can require redress against the nation or state. Rather as a legal citizen, I am instead: allowed to raise the initial question of redress. Only the jury is allowed to establish the cause/ and thereby create the question to be certified by and through our district federal courts. Majority shall rule.

Each state, has the right of enforcement, that only a citizen, who has applied for this jury by simply putting in their own name. By living therein/ being selected by lottery, with only the restriction of age. These shall have the right to participate in a redress jury within “the state of their legal residency”. The time limit is determined by the rules certification/ from the supreme court: to be filed within a state in 45 days. With docketing and trial of the case to be within 30 days subsequent.

Each and every district court in the nation CAN: by citizen request, “filing this trial transcript/ with appendix”. The plaintiff who successfully files; may provide their own supplemental brief/ IF they so choose. This supplemental brief, is submitted as an auxiliary consideration/ and dealt with separately. Jury trial and participation: create and allow for; “we the people” questions; not entertained in the originating transcript. These SHALL be submitted to the nation as presented and asserted to be “necessary”; by this state presenting them, and their respective majority.

There shall be no alteration of content, between the various districts of a state/ if it is approved by jury: this state shall add that to its combined decision. Thereby nothing is left unturned; by this redress decision. Every concern confined to the basic fundamental of this redress trial: shall be dealt with.

BUT ONLY one trial per federal district court, IF a citizen does indeed file for that trial to occur. Majority rules the state/ just as the states rule the nation.

When this decision is certified by the state court jury trial decisions: “yes or no”. Majority rules/ a tie means you have lost your say. The judge has no say/ the jury decides! Then redress trial is either upheld by this state for the nation or dismissed. If accepted by a majority of states, actual trial of our employees is ENLARGED, to include the entire nation as plaintiff/ the employees of our nation as defendant: and the US SUPREME COURT as the purveyor of what shall then, immediately become, “a trial of our democracy in action”. The reality of our ownership, as we the people, proven true!

The authority of we the people to govern ourselves/

CANNOT BE DENIED! But by ourselves. We are, the owners!
