

IN THE UNITED STATES SUPREME COURT
WASHINGTON DC

GRANTED; under original jurisdiction as applied within article three of the US constitution: section 2, the judicial power shall extend to all cases in law and equity, arising under this constitution. **Section 3. Treason shall consist of “adhering to their enemies/ giving them aid and comfort.”**

The composition of threats claimed by this lawsuit distinctly identifies the price of failure is death/ **the cost of being wrong: potentially this entire nation, even world destroyed. That is treason!** A leadership of any kind: that fails to understand, or accepts any risk, that is potential death or extreme harm: to the nation/ world/ state/ or individual. Harbors a criminal/ aids and adheres to their plot to “attack, destroy, mutilate, or explode what is critical to our survival, as life or nation. IS a true international terrorism plot. “*Clerk of the court*” is not protected against the term “treason”: if that cause is discarded without due process. It’s a choice; “regardless what the boss says”. Our safety as a nation comes before any rule of the court/ any employee of government: our lives shall be protected. Or there will be consequences, when the people recover their power.

Nothing less, than immediate attention: distinct moratoriums, as required to protect this people: enacted, created, and demanded by the court. **ARE DEMANDED, by we the people!** To protect us: from those who risk our lives, our nation, or our world! To “see and hear”; the truth of what our courts shall do for us: is an exercise in authority of the people over this court. Those moratoriums, necessary to defend OUR NATION shall exist: **Until such time, as the people have had their say.**

IT IS THE LAW, which demands protection of this people/ this USA; and nothing less. From those, in the court: whose job is designed: to serve, and service our needs, our nation, and our lives. Whose job it is to guarantee justice, and all that the preamble and constitution provide. **THAT IS YOUR JOB!** Our right to enforce, with whatever punishment upon our officials we deem necessary or appropriate; by the foundation of your oath.

THE THREATS establishing treason/ identifying traitor: CANNOT be dismissed, or mistreated: without “adhering to the enemy”. Even the remotest possibility, that any single threat is true: **REQUIRES interdiction.** Requires the investigation of evidence, which means trial to prove. Requires **REDRESS OF GRIEVANCES**, to examine **HOW** it is our leadership allowed these to exist.

REQUIRES a decision by the people, WHERE THEIR LIVES are being gambled with: after true and complete disclosure of all threat has been achieved.

Until reality proves the evidence is wrong. No judge can do that, with dismissal/ there must be witnesses: it is our nation, our lives, and our world that is threatened **with extinction! OUR DECISION/ No excuses allowed.** **Due process, establishes NO “frivolous rules, or contempt”, can or shall be applied/ guaranteed rights shall be upheld.** *The essence of traitor is: “I will stand in the way, while you the enemy sneak inside and conquer OR, I will distract them with meaningless activity while you prepare their deaths”.* **Even one credible threat,** that involves the nation, or a distinct set of people within this nation: prove this TRIAL cannot be dismissed or delayed; and there are many.

JAMES FRANK OSTERBUR

VS

THE UNITED STATES OF AMERICA
THE HOMELAND SECURITY DEPT
THE FEDERAL BUREAU OF INVESTIGATION
THE JOINT CHIEFS OF STAFF, UNITED STATES MILITARY SERVICES

DATED: 10/18/10

In the cause and consequence of a trial DEVOTED to the protection of all the people. The foundation of threats and the failure of government employee action to defend the people of this USA: as clearly exists by the evidence of any threat. Requires the fundamental demand of FIRST AMENDMENT REDRESS OF GRIEVANCES. More simply “our nation, our ownership, our decision, our Democracy, our choice”: and YOUR duty to surrender to that authority TO US, and declare by witness, the evidence, and our participation; all that trial shall demand.

Article 3 section 1 of the constitution demands: the judicial power of the United States shall be vested in one supreme court...” Which means: in terms of a trial that exists for the truth, the sanctity of democracy, the foundations of law, and the purpose of “our employees, shall protect and serve the people”. **Where life or death questions threaten an entire nation!** The supreme court shall orchestrate

the proceedings. But in terms of first amendment redress of grievances/ it is the people who shall be the judge. **For we are the owners, and this is our nation. That ownership does NOT belong to “our employees”. It is ours!**

The foundation of law: REQUIRES, those agencies which are considered to be dedicated to our protection as citizens and defenders of this nation: **SHALL be involved to support, defend, demand, investigate, account to the people all that is true/ and examine the evidence presenting knowledge that is pure in its purpose called “life must come first”. This is then evidence: THE LAW SHALL GOVERN THIS NATION.** Because if it is not found that our servants and employees are for us/ then it is clear, they are traitors; and that fact once known, shall have consequences. Those found to be terrorists and a threat to either the sovereignty or authority of WE THE PEOPLE, as a democracy governing this nation: WILL be punished.

The demand is: to assess and assemble the truth, with regard to each of these threats so listed in this LEGAL DEMAND. With a distinct decision to examine and define, the potential future each threat, recognizes as real. NO GAMBLING with life/ NO editing/ NO excuses. The distinct truth as is considered “the best we can do”. So that the people being made aware, shall then make their own decision/ and accept their own destiny.

THE REALITY of trial: is NOT to assert a dependency on “scientific information or theory”/ **BUT TO DEMAND: NO ONE, gambles with our lives, as an individual, a nation, or a world: without OUR expressed vote, either yes or no!** Our decision, not yours: because it is our lives/ and liberty demands it is our right! Thereupon, IT IS A GUARANTEE of government, NO RISK ALLOWED, our lives and our future is sacred! **OR if the public** evidence is clear/ **they choose to accept the price of failure:** allowing these risks, others make upon their own lives, with this world and society: then the gambling may proceed.

However if this society votes NO more gambling/ then whosoever fails to abide by that decision, or in any way participates in a decision to gamble with our lives in any form. You may, **Be certain** of your torture and potential dismemberment of body while living: etc! I need not participate/ the world shall do so, of its own accord! Because, those who are playing god with either experiment or nature or resource or any other conceivable result that ends with our potential extinction as a nation or world. Will be found out/ and the people will respond; it is a requirement to give fair warning! In other words: if you gamble

with our world, our lives, our future, our everything/ **YOU WILL PAY TOO.**
Not a game.

THE DEMAND IS: according to the constitution (*there is **NO protection** for those who seek to exterminate us/ or whose failure results in extinction in massive numbers of life; if proven true*). Our employees/ our military SHALL protect our lives; and that means stopping the reality of risk/ the composition of these threats listed below. These threats, DO IN FACT establish: investigations shall be made. As is true of any other terrorist threat of destruction and harm/ until it is proven safe: each possibility, SHALL be considered a weapon and a threat, to our nation, world, the future of us all. THESE MUST be examined in reality, established by truth, as either accepted by the people/ or denied to those who gamble with our lives and world, with everything important to life.

As with all terrorist threats: once the act has been established (the bomb goes off), there is only murder and mutilation and death to be dealt with. It is the power to destroy, that decides, this trial must exist!

THEREUPON AS WITH ALL TERRORISTS: ACTIONS MUST BE TAKEN/ WHEN THE EVIDENCE PROVES even THE POSSIBILITY OF SOMETHING TOO HEINOUS TO ALLOW; EXISTS.

It is the job of the FBI/ IT IS the declared work of the homeland security dept/ it is the critical reality of military decisions added in, which threaten our lives, or support our nation. **It is, the US supreme court which has previously refused to honor its oath/** has chosen to dishonor this nation: as is proven in docketed US SUPREME CASE 08-1339.

**That demands FIRST AMENDMENT REDRESS OF GRIEVANCES/
WE THE PEOPLE MUST DEFEND, OUR LIVES, OUR NATION, AND
WORLD: for ourselves!**

OR MORE SIMPLY: this lawsuit demands the constitutional guaranteed rights of our citizenry/ my right as a citizen: TO CLAIM THIS LAW, AND SEE IT IN ACTION, thereby protecting our lives, as ourselves: **as WE THE PEOPLE!**

To do that, the defendants listed: and all OUR EMPLOYEES AND MILITARY: shall be held accountable. Shall work for the people, and nation. Shall establish a true open public courtroom AND media trial: “with all doors

open/ all lights on/ and no right to excuse or defend yourself by the fifth amendment. That constitutional law DOES NOT envision the protection of traitors. **That purpose does NOT allow** any opportunity to participate in the destruction of a nation or world. Each will answer truthfully/ or be immediately thrown in maximum security prison, as a terrorist: for not less than one year. Minimum sentence for any intentional liar, or story teller: is not less than ten years in maximum security prison. ONLY THE TRUTH is allowed. As best you can.

The purpose or intent of trial is: To define, to critically investigate, to fundamentally examine and protect the citizens of this nation and world, the future of every child, every life on earth; and to present to the AMERICAN PEOPLE. The evidence and proof of **a future that will NOT expire**, into tragedy. A nature that will not descend into mutilation and extinction. **We demand to KNOW** the reality of our nation, the truth of any risk that can impact our lives! We reserve the right to demand ANY RISK, shall not exist/ without our direct decision of the people. We demand, If: we find anyone gambling in ways that will or could impact our lives, our future, or the foundations upon which we must depend to survive, with serious harm or destruction/ that need not exist: we will kill you.

This trial, this individual threat *to those who believe they can or will play god with our lives* **instead of RESPECTING: LIFE FIRST!** Redefines the relationship between those who do risk our lives/ and the people whose lives they can and do impact. NO MORE GAMES! NO MORE PLAYING WITH FANTASIES AND THEORIES beyond the scope of individual personal threats to you. To establish that fact, “play ONLY with YOUR own life. It is a duty to establish the warning and fact: YOU MUST NEVER GAMBLE OR PLAY WITH OUR LIVES too. Even so, that too: is a decision of the people/ THEIR right to decide for themselves. This is merely a warning of what they potentially: will do, should you fail to quit threatening their lives immediately, with literal extermination of Family, future, everything!

We are the judge/ as an official representative of government; you are the employee. The constitutional demand is: the US SUPREME COURT has the responsibility to create justice/ in accordance with our first amendment LEGAL RIGHT. Thereby accepting our authority as: we the people, entitled to receive accountability from our employees, and DUE authority as owners of this nation.

WE do, DEMAND our democracy back, BY LAW, not rebellion!
As, WE THE PEOPLE.

ACCORDING TO FIRST AMENDMENT LAW: which gives us the right to

judge for ourselves & to declare: THIS is who we are by law. We hold accountable, “our employees”. As true and legitimate owners of this nation. BY OUR VOTE, we will choose our future, we will decide our law and its penalty, we will control our military. Because we are a DEMOCRACY, called WE THE PEOPLE!

Those terrorists threats, which must be investigated include:

THE NATIONAL IGNITION FACILITY, livermore CA
OUR LIVES THREATENED WITH EXTINCTION,
the first theat!

YOUR american LEADERS/ YOUR university EXPERTS, **gamble with this planet**, at the national ignition facility: BASED upon these *theories (guesses/ expectations)*. The machine exists/ the experiments are now running. **What is true, DETERMINES whether this entire planet lives or dies!**

Not a game, because this is our reality; because this is the same fire as is on the sun/ the potential same result as is the sun, here on earth!

This trial is NOT about “the science”!

Rather this trial for WE THE PEOPLE: is strictly about the risk and reality of being wrong/ or being too late, a future destroyed; if we do not act now!

THEIR Theory #1

fusion cannot be sustained here, because the necessary gravity, hence pressures “to crush atomic materials, thereby attaining heat”: are **not possible to maintain** for any significant period of time, on earth.

THEORY #2

thereby; all fusion is generated from the center of the sun, (wherein tremendous pressures are believed to exist, **BECAUSE OF gravity**) and radiates out.

THEORY #3

GRAVITY, because the sun is considered to be **so massive**, is the cause of fusion.

THEORY #4

gravity is: the evidence of a large body attracting a smaller body, thereby holding it by some form of unknown attraction.

Upon these four theories “of the extra special smart people”: they gamble bringing fusion to earth will not cause this planet to become as the sun is today; completely engulfed with fire!

THEIR QUOTES:

1. WE WILL create an energy burst explosion: equivalent to 500 trillion watts or 1000 times the electrical generating capacity of this USA.

2. WE WILL achieve temperatures inside the target area of over 180 million degrees F. “More, than an exploding sun”

3. WE WILL create pressures equivalent to 1000 times greater than, the gravity of this earth, inside the target area.

THEIR MACHINE: 192 of the most powerful lasers known/ all pointed at one single pinpoint spot called the target.

THEIR PURPOSE: to surround and encapsulate the atomic structure of whatever elements are inside that target, and make it surrender to their, heat imposed. “No escape”! Thereby forcing the atomic laws that govern our existence here, to submit beyond their limits to resist: changing that atomic law of time, governing earth.

THEIR GUESS: fusion will result/ THEIR EXPECTATION: but when we stop the lasers: it will stop, because the pressures needed to sustain fusion; containing the atomic environment will cease. [More at www.justtalking3.info](http://www.justtalking3.info)

IF THEY ARE WRONG/ AND THE FUSION STARTED CONTINUES WITHOUT PRESSURES INDUCED BY LASERS:

they have created a fire that cannot be put out, because everything here is fuel!

Are you willing to bet this planet on that theory?

E) the stated “military mission, or purpose of NIF, this facility; apart from creating fusion is: to test, “the exploding part, of nuclear bombs”! Going to contain “repeated nuclear explosions”, inside a target area with lasers. In a suburb called livermore; of San Francisco. Apart from all the other possibilities: containing nuclear explosions by encapsulating it within laser beams mean: IF ONE single laser fails/ there is a hole by which the nuclear explosion will escape, as a focused blast, multiplied by the energy effects, of the remaining 191 lasers.

ARE YOU WILLING TO GAMBLE WITH THIS ENTIRE PLANET/ ITS CHILDREN/ ITS LIFE/ ITS FUTURE:

TO PLAY THIS GAME? Want to live in a San Francisco?

NO GOING BACK, EITHER life or death, for a planet/ based upon theory; and the propaganda of news media, declaring “they know”/ when in fact **as proven by the word theory:** THEY DON’T KNOW.

These are Excerpts from www.justtalking3.info

This is NOT a research project, it is an expectation and attempt to create as stated

on their site: fusion, the same fire as is on the sun. **Fusion is the burning of atomic bonds (EVERYTHING HERE IS FUEL)/** very similar to fire on earth that burns chemical bonds: except atomic BONDS ARE the fuel, instead of chemicals or more correctly molecular bonds.

Theory #4 believes gravity is so strong it “holds the planets in orbit around the sun”. *YET: We can defy earth gravity, by jumping; with minimal efforts. HOW is that possible if gravity is as they expect, holding planets millions of miles away. The math does not compute!* Compared to the size difference between earth and human, it is not possible.

Theory #3: the sun is massive! However, we know the **flame rises due to heat expansion** “millions of miles” from the surface of the sun/ **because it is a sphere on fire**. Thereby the heat pushes against itself, adding a tremendous increase in the distances needed, for that heat to exist in relation to the reality of expansion. Meaning very simply: not only does the fire not extend down to the sun body itself/ but the size of that sun body must then be, extremely smaller: than common science expects.

Theory #2. The sun burns from the center out. IF the sun was entirely “fire”/ then it would all be burning, causing a rate of consumption applied to the body of the sun that would be extreme. The opposite is true, it burns slowly; and we know this is true, because the sun remains constant in human history. Since we know, that everything on fire, is being consumed. We know, thousands of years of human history would prove the temperatures here on earth would have changed. Thereby, we know everything is not being consumed. If everything is on fire, everything is being consumed. It is not so.

MORE CRITICAL is the known truth: an exploding sun expands tremendously prior to its final explosion. We know, if the sun were completely on fire, being hottest at its center: **THEN NOTHING EXISTS within that mass, TO EXPAND!** Thereby proof positive fusion exists on the surface/ NOT from the center out.

a large mass on fire, has a variety of “hot spots” and will attain cracks and crevices and flumes varied by the temperatures beneath. It will have area’s being consumed faster & slower/ the sun would then deviate from a spherical shape/ and it does not.

Theory #1 only intense pressures create fusion! However reality states: being effectively contained as an atomic environment/ and developmentally altered from its normal atomic state. Atomic energy that cannot react outward/ given the law: for every action there shall be a reaction! Demands that energy

shall turn in upon itself: because for EVERY ACTION IN TIME, there will be a reaction in reality. OR more simply an atomic energy confined which cannot push out/ once overwhelmed, then pushes into itself. That process begins the burning of atomic bonds OR: The process intensifies, dependent upon the length of time: establishing “no space” and a black hole is born. When excess energy creates, a single escape route. Essentially becoming a “ram jet engine”; what we see as “extreme suction”/ pushing mass through that center; turns energy inside out, and “dark energy is formed”

Theory #5 that fusion is made by the joining of two hydrogen atoms to become helium. HOWEVER, reality argues: When atomic bonds are severed, only “parts and pieces” are left/ they eject as individual protons and electrons to recombine past the flames as hydrogen. Meaning their theories are, all fantasy and delusion

People will die.

Or would you prefer to believe “Chernobyl” never happened?

Those actions include

the SECOND MAJOR IMMEDIATE THREAT

to our planet: the terrorists at CERN/ the particle accelerator buried in a mountain.

Their stated purpose: “to recreate and study, the energies responsible for the BIG BANG”/ **THE SINGLE MOST DESTRUCTIVE EVENT IN THE HISTORY OF THE UNIVERSE. Here on earth.** IT IS, *A gamble with this ENTIRE planet that is complex/ but understandable, if you try.*

THESE “EXPERTS” ARE, attempting to demonstrate energies that led to: creating the structural defects that caused the originating mass to explode, and expand into the universe we know today. We know structural weakening occurred because it is a documented explosion of. such force, that no doubt exists only “dust and gas” was left.

THESE scientists, ARE GAMBLING: they can create the same energies and use it as a toy to study: simply turning their machine back off, will mean nothing bad can happen. **They BELIEVE , THIS EARTH WILL NOT EXPLODE; EVEN THOUGH THEY EXPECT, intend and demand: THESE ARE THE SAME ENERGIES, THAT DESTROYED THE ORIGINATING MASS, of an entire previous universe.** To be wrong then, is to create the destruction of this earth/ **same energy, same result is not unlikely.** Therefore we review their theories here. (IN BRIEF) And demand: if even a one in a

million or more chance exists the entire planet is destroyed: **THIS MUST STOP! IT IS, our lives/ our future/ our everything: NOT just yours.**

They BELIEVE, the potential rewards, outweigh the risk; they are going to be “gods”. **However** the reality once released, means we cannot go back in time. **If they are wrong, the evidence is: an entire universe was changed; how much less, just this small planet.**

Their machine is described, as the following statements: (described at scientific american, February 2008, for the propaganda media).

1. We will achieve one trillion volts of contained energy, traveling at the speed of light; within this machine. *You could think of it roughly; as the energy required to lift 3 or 4 empire state buildings off the ground.*

2. We will boost the proton’s energy (the active part of a nuclear bomb) by 16 times. *Or if they could transfer this imposed energy into a nuclear bomb, it would be 16 times as deadly and destructive.*

3. We will smash these protons at the speed of light 30 million times a second, for up to 10 hours. These are (*for visualization*) bunched into “trains”. The number of trains or bunches on the “rails/ wires” are 2,808 at any one time. The number of collisions per second on this ride is up to 31 million crashes per second, at 4 locations. The expect as many as “20 individual train cars ” collisions at every crash site, each time; the rest travel on. $31 \text{ times } 4 = 124 \text{ million crashes per second}$ for ten hours $= 36000 \text{ seconds times } 124,000,000 = 4.464 \text{ trillion crashes per day}$ times 20 individual proton crashes per time= **89 trillion, 28 billion proton crashes per ten hours**

4. Several nuclear power plants are required to generate the electrical forces needed for their experiment. Add that to fuel consumption/ pollution/ etc.

5. All of that force is isolated “into two wires (for simple understanding)”, the electricity moving in two different directions/ and then directed into a head-on “train wreck” collision through what is in fact “a needle, or proton ejection means, shooting the gap between wires”/ all that power, going through “a needle” kind of like your sewing machine; sort of. **Their desire and intent: apart from any other description is, to create energies: “to search for new forces never before seen in time”.** While this may sound exciting, the reality of unleashing forces that do not obey the laws of energy and mass in time; as has already been proven to explode an extreme mass. **IS WITHOUT DOUBT EXTREMELY DANGEROUS.**

YET, this is their plan/ their purpose/ what their machine is for: and it is playing with tremendous force. Established, with your money.

YOU WILLING TO BET YOUR LIFE, YOUR CHILD, YOUR FUTURE, YOUR ENVIRONMENT, YOUR EVERYTHING/ YOUR PLANET: ON THE RESULT? They are betting exactly that, and the machine is now running.

WHAT THEY DO NOT TELL YOU IS: that in playing with energies this extreme, it is entirely possible that they WILL create the same energy that caused the originating mass of the previous universe (all gathered together/ just like this planet): TO EXPLODE with an intensity, that nothing seen in time can duplicate. Or more simply, given the incomprehensible size of that originating mass: WHAT WE DO KNOW IS, THAT EVERY SINGLE ATOMIC STRUCTURE INVOLVED EXPLODED AT THE SAME TIME! Creating instantaneous expansion of the whole. Or more simply, it exploded so completely and so violently, that only dust and gas was left from the entire originating mass.

Think about that for just a second/ and then go back to their stated purpose: to bring this energy here on earth.

What is important about the big bang for this discussion is:

FOR ANY STRUCTURE TO DISINTEGRATE INSTANTANEOUSLY, as did the originating mass of this universe: **ALL THE STRUCTURAL COMPONENTS INVOLVED, HAD TO BE WEAKENED, (a very important fact).** In other words, something preceded the explosion itself. The question is HOW? **The answer is: only an energy SO EXTREME, that no reaction could exist, no elemental relationship could defend; to confront it.** An energy and momentum accelerated so fast: that time did not exist, by the laws we know as truth. **Time is by actual fact: the law that says, for every action there will be an equal opposite reaction.**

What is important here is: THE RISK TO OUR WORLD/ THE GAMBLE these few, and their propaganda news teams, experts, and governmental leaders have created: to an entire planet of life.

The question is: HOW MUCH velocity and momentum can the altered energy; as dimensional protons of mass, escaping time; exit from this chamber with? We return to their statement: “We WILL increase proton energy (the explosive part of a nuclear bomb) by 16 times, due to our acceleration process”.

A 20 megaton nuclear bomb then becomes a 320 megaton nuclear bomb: it is a massive increase in momentum. Therefore let's remember: if a proton escapes at the velocity of the speed of light/ with an equivalent momentum of 16 times its

normal state of energy, it needs only a push: to be accelerated beyond the speed of light/ or the arena wherein time and its dedicated limits of: for every action there shall be a reaction/ or measurement of time exists.

To give these protons that push at cern, in these experiments: there is “at the atomic level” ; a massive nuclear explosion behind them/ with every crash. 89 trillion proton, crashes in ten hours Does that not sound like “a push”?

There is also a massive aurea of electrons in front, behind, or surrounding them; opening the door, to escape velocities, for any proton that breaks free.

DEPENDENT UPON: the protons that do escape beyond the limits of time, or action and reaction limits imposed by time. The extreme number of electron energies pulling them or more correctly TURNING THEM BACK, (*opposites do attract in atomic energy; electrons exist at speeds over “light”*) will be applied. This then becomes the ingredients to form: “like a trampoline or spring, at low amounts of mass, or more **specifically, if enough mass is ejected, or collected at once; a centrifugal loop**”. The energy created identifies itself by the trail of electrons it creates/ but because this is over the speed of light, time cannot measure it. The end result is: protons will bounce back and forth, or circle through the earth or around it; unnoticed and unfelt until the true force has gathered together enough protons with sustained momentum to “leave the womb” of its creation, called CERN. With this mass in place, and these controlling electrons an established force, anchored in place. This energy now, begins influencing time. OR more simply, once enough momentum has been achieved to establish, the centrifugal effect, an “upside down electron tornado” effect, will occur; which will then pull atomic structures apart on earth, and eject them into space: the end will soon come! Which is: the necessary effect in, or allowing: the complete weakening of atomic structure in large or small mass. Once the tipping point has been passed, more and more protons will be accelerated to complete the process by the actions of this energy)/ as is proven possible by the originating mass. Prior to its explosion, which did create, Our completely new universe. Or, in this case OUR; evaporation from space and time, as the planet explodes. Not a fantasy, these are the energies being created/ the purpose of the machine at CERN! They play a game; without regard to consequences, planet, or life: using fantasy, delusion, arrogance, and absolute selfishness GAMBLING with our lives. **But reality proves it is no game. MORE IN**

DEPTH AT <http://www.justtalking3.info>

love is the essence of everything we are, being alive struggles, because of what we are not. Truth says: it is not life that lacks in us/ it is, “what we choose to want”.

Find truth. Or people will die. This is, Added in an effort to modulate (**to leave room for hope**) fear.

The demand REMOVE all assistance/ all monies/ all intellectual property/ all physical property, lent, given, or sold/ and demand NO citizen of this place shall enter therein or provide assistance in any manner. They shall be called TRAITOR, if they refuse/ and held accountable. This government shall seek resolution with other governments regarding this threat.

Those who see no danger/ and drive right into a brick wall: are called “fools”. Are they not?

Those actions include

The THIRD immediate threat, TO LIFE.

NATURE IS, THE GENETIC STRUCTURE OF LIFE! It is not more than that or less than that.

Nature is, the genetics that build our bodies, create our world, establish a fundamental base of knowledge by which we survive. Combined with the energy necessary to establish and maintain movements, decision, and the comprehension called life. **THIS NATURE, *the universities, industry, agriculture, medicine, and businesses, are mutilating across this planet; as if it were a toy.***

The foundation of their theory on genetic mutilation is:

1. In the religion (cannot be proven) called evolution: evolution (*we shopped/ we wanted/ we took for ourselves/ and it just worked, without even a brain*) builds everything, “therefore life heals itself/ and we don’t have to care about anything”. Even though these “scientists”, say it took “a billion years”.

2. **The primary goal of geneticists for the last fifty years has been: IF WE CAN JUST MAKE GENETIC STRUCTURE “COLLAPSE AND BURN; so to speak”! THEN, we will learn how to put it back together and take it apart: becoming creators of evolution ourselves/ WE will be gods.**
[*These scientists, HAVE done HORRIFIC things to life, in their laboratories, behind closed doors!*]

That means, their perceived primary purpose is to destroy the integrity and disciplines that give us life. The BALANCE, that gives us two arms/ eyes/ legs/ etc; same on both sides.

Think about that! Think about how your bones would be worthless without joints/ would be nothing but pain without lubrication/ would be useless, unless attached together in such a way with tendons and ligaments that you could move. Would be a skeleton without muscles; lacking, the necessary; wrapped in a very specific order and attached so they could move, or without a mind to move them. Can you not understand genetics give you a face, or a hand, or a foot; absolutely everything life represents: AND life, LETS YOU USE THEM.

Yet these are beyond even playing, calling life a toy/ THEY DEMAND death, so they can play god, and put life back together by their own design. THEY ARE YOUR ENEMIES, FAR WORSE THAN ANY OTHER “TERRORIST GROUP”. (equal to the top two threats) THESE TARGET EVERY LIFE IN THIS WORLD. WAKE UP!

3. The expectation of all medical genetics is: IF WE SAVE THIS ONE/ then we will be great; no more tears! The reality however is they are gambling with life and body for every single living biology on earth/ for the sake of only one, a tiny few. That means “FOOL”!

With tears and propaganda and temptation they declare GIVE US YOUR MONEY, so we can “wipe away every tear”. But every DAMNED DOLLAR goes to genetic mutilation and the evidence of infecting this world with a tragedy we CANNOT recover from. **One wrong genetic mistake is an epidemic that can wipe out or change life on earth forever.** NOT a game/ NOT a need to know, **no excuse for:** therefore we must! Because the fact of life is, the human population has grown so vast/ THAT WE CAN ONLY BARELY SURVIVE NOW; we have become, that devastating to nature which keeps us alive. That means, like it or not, people do need to die. Every life does need to be protected/ but **NO LIFE deserves the possibilities** that every other life will be gambled away; because of just one, or a tiny few. How is that NOT clear? NOT A GAME, life or death for a world. You ain’t god/ GROW UP. Death brings eternity, a few more days here represent nothing in comparison. How is that, worth wrecking Creation?

4. The purpose of all business genetics is: to create what they believe IS A MORE SELLABLE PLANT or biological reality/ than nature provides. To control biology and you, for money! It is NOT to help nature, for the purposes nature needs help with. But **to intervene with “man knows better; we want to be god”.** So traits are selected/ **but the reality of what happens in the rest of nature is a complete unknown: they DON’T CARE.** And reality many times, cannot truly be known until years are past for some transitions in genetic trait to be recognized/ some never are, even though reality changed. Because of, THESE RISKS: For the purposes of

the GOING TO BE RICH: with the expertise and demands of the UNIVERSITY EXPERTS; who claim “we have power to decide”. **AMERICA has become a nation of human “lab rats”/ for we are fed vast amounts of genetically altered foods, and given no choice. It is an experiment with our lives,** to see “how the gods, they declare themselves to be”/ are doing with **their re-engineering of you.** One tiny genetic mutilation that cannot be seen/ and life stops. One tiny genetic mutilation, and your face grows out of your ass. One tiny genetic mutilation and plants turn to poison. One tiny genetic mutilation and nature becomes sterile/ and our food supply ends. And they can’t wait to infect ALL of nature; as fast as they can!

5. The **impact of changing specifics**; regarding any creature or plant; CHANGES the entire balance of nature and its cycles, its methods, and its ways. Causing the destruction of other life/ interrupting the food chain, and composition of a creation that “works”. Do not “fish need to school”/ IT REQUIRES, “distinctly, the same”! If complete recycling did not occur in nature/ then we would not be alive; because whatever refuse would then be left behind after thousands of years, would take over. Take a look at your garbage.

7. Life is not a toy. Yet thousands if not more in genetics around this world: are all trying desperately to prove they can be gods. **To prove they can create humans crossed with insects/ or fish/ or animals/ or anything else. Others are trying to cross plants and animals and insects together.** Others are trying to become giants, and so on. **Deliberately crossing genetic boundaries which create species:** to redefine their own creation by playing god; **regardless of the risk to all life on earth. Boundaries exist to keep species apart, so that each is independent and sacred; “Therefore, Built correctly”.**

These “scientists” will succeed soon. ***They will prove: genetic discipline has been breeched, and all life on earth will be different. Death and mutilation will spread in pandemic proportions, and every living thing on earth will be destroyed. How can you doubt, “the wisdom of men” re-engineering you, and your world!”*** WHAT COULD GO WRONG? Answer the damned question!

How can you fail to accept nature has worked for thousands of years of human history proving balance and wisdom far beyond human comprehension. Everything men have done, ENDS IN THE TRASH! And yet people say, “we must”! WHERE is your mind?

That, is the contribution these people will deliver to you. Unless you stop them quickly, **what is called ARMAGEDDON (nature in chaos) will come.**

Geneticists ARE PLAYING WITH THE MECHANISMS THAT CAUSE THESE THINGS TO HAPPEN. **The reality that gives you life, because nature is literally: genetic structure, combined with energy and mass!**

Just because you can defeat a process/ does NOT mean you can “restart it/ rebuild it/ or relive it”. Genetics are NOT a cross word puzzle, that will make you gods. Not a game or math problem either.

WHERE IS THE ENERGY/ WHERE IS LIFE! You literally do not even know what these are! *Think about that: gone is gone forever/ never again; and that includes all participation in thought and every other reality we take for granted.* **Life is not a battery:** Evolution, broken down says: essentially, we shopped, we found something we wanted, and we took it for ourselves/ we just shoved it into place, and its all good [no eyes, no mind, no hands, no food or access to food or ability to understand food is needed: absolutely nothing, but “baby gibberish”. And they invaded your world. Shame on you!

LIFE in truth however: is BEING a genetically disciplined design that functions entirely on its own, is self-building, self sustaining, finds its own energy and materials, and is self replicating so that life in time itself can continue on. Is more simply: a complex, balanced organism that gathered, built, and surrounded as in a boundary; the intricate chemical and biological compositions necessary for taking in, finding, using, building, defending, moving, talking, seeing, hearing, and excreting the necessary products to achieve the maintenance of life; etc, etc etc. In addition too: creating, separating, sustaining, gathering, regulating, pressurizing, and directing chemicals with their products into working component parts/ **WITH** some type of functioning “mental process”, by which the determination or decisions of process or need could be achieved.

Can you make a robot move without some type of “computer”? No, **YOU CANNOT.** **Can you live without all the necessary parts of your body?** Take out your own heart, see how long you live! **WANT** to give this a try? Why not!

Just so you know: **people do not make children**, got a mind or not; **biology does.** The body is composed of very many critical parts: which must be in place at the proper time and functioning throughout life, or the body dies. **IT CANNOT EXIST,** with just a few parts/ **EVERY SINGLE ONE IS REQUIRED,** or the body dies. **In other words: you CANNOT build a body one piece at a time.** Think, what good is a heart without blood, muscle, lungs, veins, ETC! Every human being wants and needs health: simple as that/ if its your life or your lover or your child; you want it too. **BUT WHAT IF EVERY LIFE ON THE PLANET WAS CHANGED**

FOREVER; by a long list of potential pandemic's, mutilations, catastrophe's, horrors, and endless tears: JUST BECAUSE YOU DIDN'T know when to quit. Since we do not know, and NEVER WILL: what is TRULY or fundamentally dangerous, and going to turn into horrific consequences: WE CANNOT PLAY, OR LEARN. Because failure can mean the end of nature and life as we know this earth to be. It is gambling with all life on earth/ and no one is worth this risk to an entire planet. Certainly not, for just a few. **Every life on earth is impacted by genetics. Every genetic manipulation is a potential pandemic, either caused directly or as an agent of mutilation that becomes the pathway to pandemic or mutilation forever in any part of life. Since we are totally interdependent as a world/ kill one, and you will kill everything dependent upon that one.**

*Every form of Genetic manipulation: IS gambling with all life on earth/ and it is absolutely wrong, no matter what the purpose is. We CANNOT return to the way life was, when it goes wrong. IT WILL GO WRONG. **The very reality of what they do, INTENDS TO MAKE GENETIC NATURE, surrender and die, ITS THEIR STATED PURPOSE.** So they can play god, and make biology, live another way. WHAT IS NOT INSANE?*

REMEMBER THIS: the human body, can kill itself, or die from any slight invasion of something foreign. We do know that immunization is dependent upon recognizing the invader in time to stop it/ and all mutilation, and most poison (even if not poison to you); is distinctly responsible for causing that not to happen.

Behaviors in the community of fish or any other creature are dependent upon a large number of factors, including genetics which make up our initial "primitive foundations upon which all behaviors are built. Fish schooling in the ocean for example is dependent upon all behaving the same, same size, same colors, making the same decisions based on the same signals and so on. Change that, and they die easily. When they die, everything dependent upon them dies too.

*1st amendment redress of grievances IS: **THE DEMAND**, "we the people, are the experts now" or more simply we decide! **The DEMAND: WE THE PEOPLE, ARE OWNERS, AND HERE FOR ACCOUNTABILITY FROM YOU.***

The demand: OUR RIGHTS, OUR RULES, OUR LAWS, OUR SAY, OUR DECISION: shall all apply. Under the constitution or as we design by true majority vote.

*Redress in this trial, established **WILL INCLUDE: "the list" of threats that can exterminate us from this earth/ will include accountability in government and money. Will include healthcare, and such things as: WHY do we not have the***

option to visit a doctor “after hours” instead of the emergency room. “We provide twenty four hour service/ the majority of cases in the emergency room CAN be handled simply by a doctor visit.” WHY do we pay more! **IT WILL include whatever the people desire! And so on..**

This is literally: FOR CONTROL OF THE NATION, by WE THE PEOPLE! Yes, you agree, we WILL become a true DEMOCRACY/ or no, let everything remain the same!

Make your decision.

THE LAW, is ours to demand! They cannot refuse, without criminal consequences and prison: should we decide to enforce that law. THIS IS A FACT, OF THE CONSTITUTION OF AMERICA: AMENDMENT ONE, and more. Do you desire your nation be returned to DEMOCRACY? To we the people?

Make up your mind.

ARE YOU WILLING TO LET THEM CONTINUE GAMBLING THIS NATION; ENTIRE WORLD? EVERY LIFE, EVERY FUTURE, EVERY CHILD, EVERYTHING THING? People will die.

Every society throughout history, who followed the occultists (those who demand, “we are smarter/ than GOD”); in their mad dash to play god & to sacrifice life. Were ALL driven to extinction, or nearly so! Why not you? Think about what it means to be wrong! Define your truth, so that you and life, will survive.

Those threats include;

1. That when antibiotics fail, surgery fails too/ as well as treatment for countless diseases? ***Has it NEVER occurred to you, that genetically mutilating everything we need to survive has consequences/ or throwing poisons, by the billion ton HAS a price? Or that cancer is essentially a small genetic mutilation: WHERE, is your statistical information, over time; about what is really happening in healthcare?*** Therein **the cause of that failure** in antibiotics, is not simply all, “natural” resistance. The subsequent end of surgery because of un-treatable infection (a choice the university diploma and business made); **is a matter of criminal intent:** because people die. **The monopoly** controlled by the medical hierarchy, **over the number of doctors educated;** is illegal. **The monopoly** over citizen needs and welfare by pharmaceuticals IS UNWARRANTED & ILLEGAL. The inherent and inescapable extortion of accident, disease, etc; **does NOT allow free enterprise: it is not a**

choice. The financial reality of healthcare is in a proven crisis. The endless claim of drugs gone bad/ and the failure to **be specific** with the risk as in “ten people out of every one hundred will die; ten saved/ ten without result/ we don’t know how much damage done to the rest”; and so on. The failure of medical intervention to **WORK ON THE CAUSE of disease** in reality (*such as the statistical variations between those who use “aspartame” in relation to breast cancer, or those who use “acetamenaphine” in relation to liver disease*) / rather than genetics (playing god).

People abandoned, and without option; will soon die/ some must. It is a threat.

2. Antibiotics are incorporated as feed everyday in livestock meals (by the million ton)/ because without antibiotics to contain disease, there is no confinement agriculture. **Therefrom we KNOW, that when antibiotics fail, the entire “factory farm system/ ALL confinement agriculture” fails with it.** The creatures we depend upon for food, will quickly die/ and there is absolutely NO secondary system upon which we can turn. The small farmer was put out of business; and **YOU WILL go hungry!** One livestock epidemic can mean: NOT enough numbers to recover/ because humanity needs more; so they will all die. BECAUSE, That means either we starve, or we finish killing them all/ cannibalism is next. People die easily, and by war.

3. Did you know that antiseptics, various poisons, genetic mutilation, and more; cause a biological tragedy in much of the microscopic world. The bacterial germ and virus environment, as well as the other creatures which consume the dead, and take care of our waste, can be destroyed. Allergens, pollens, attractants for insects and other life and so much more all at stake. Alterations in these environments can easily become pandemic to them and us, / leaving life without defenses or immunity, because they have been mutated do to a wide variety of causes emanating from greed. Leaving us with endless refuse and manure we cannot get rid of: just like your own garbage, it doesn’t get rid of itself. These conditions speak of horrible pandemic’s waiting to happen. Every application of toxic materials or genetic harm/ HAS A CONSEQUENCE.

One simple truth/ one plain example is: my own teeth have been nearly dissolved by soda pop/ do to a “poison event”; I quit drinking the water. For twenty years no problem (doesn’t seem damaging does it), but then do to repeated acid drinks, the enamel disappeared, and the teeth soon followed.

Proving just because you do not see an effect/ does not mean it ain’t happening. Or think of the people with asbestos poisoning/ commonly **dormant in the body for thirty years**: then it kills you in 2-3 years: didn’t even know you were sick for thirty years! So it is with all chemicals. There was a story close to the

Mexican border: specific chemicals in the water/ pregnant women gave birth to “whole children/ except they didn’t have a brain”.

People will die

4. Did you know, that the factory ship is required to stay out on the ocean until the entire ship is filled: with fish, millions! That means, when they find a school of fish/ these ships stay on top of that school until every last fish is taken on board (so the humans, can go home). That means this entire colony, has been removed from the sea, and every predator fish that depended upon that colony will now die too. **That means literally in ocean terms, they are turning the sea into a lifeless desert**, and the tonnage caught, the species that have been lost, the fuel consumed by ships all indicate the sea itself shall soon be empty; because of what men choose to do. The sea feeds about one in six humans/ when the numbers can no longer reproduce themselves in sufficient quantity for our needs. There will be, no food: equals people die.

5. Did you know, that based upon population counts across this world, we are growing at roughly 2 million more mouths to feed/ including deaths: each week! As they grow, each one needs more. **We are already standing roughly one person per green growing, acre of earth; and that green acre has to provide for every life on the planet**, including animals, birds, insects, and you. That the ocean does not. **7 billion people, each standing on a square 3 feet by 3 feet= 63 billion square feet “reach out your hand/ and touch someone”. 63,000,000,000 divided by 43560 feet per acre= 1,446,281 acres of solid humanity. In a single living human line 3 feet apart 7 billion people reach 21,000,000,000 feet divided by the circumference of this earth at the equator 24,900 miles times 5280 feet= 131,473,279 feet. 21 billion feet of people, each spaced 3 feet apart at the equator = 205 trips around the equator in an unbroken line. If we don’t stop over-population/ IMMENSE and LIFE ENDING WAR. Is absolutely certain.**

6. Did you know **our pollinators are dying**; those creatures responsible for creating flowers, establishing fruit and vegetables: the insects, bats, and various other partners in creating nature’s abundance for us. Without them there is no flowers, fruit, or vegetables for a world/ they help nature seed this world as well. Without the insects there are very birds left, a portion of all forms of life will fail. **The biggest genocide contributors are: the new insecticides which promise no insects left in your yard/ the newer crop varieties that promise an insecticide genetically mutated into the plant, to kill insects. The various poisons and genetic alteration which if not directly responsible, are indirectly responsible by altering molds, germs, diseases, foods, and other factors which these creatures need, or which attack them. Life is, “Not all**

about us”/ because without nature and its food for us, we are dead. Therefore their needs are our needs/ their death is our death. The reality of genetic alterations in food plants is very simply: LIFE STRUGGLES TO SURVIVE/ but pushed past the point of no return, it simply dies. These plants and these methods will leave you with a living organism that soon, **will simply fail to reproduce anything/** because you stripped it, of a desire to live. The “smart people”, will laugh/ but life is not a mathematical equation, not a demand or creation of humanity: it is life, and in partnership with life, is the decision to survive. **YOU chose to make them sterile/** YOU will get your wish, if you do not **immediately stop.** Plants & People will die.

7. Did you know, that only one inch of rain in every 50 inches of rainfall actually reaches the aquifers ; a quote from the IL dept of natural resources/ state water survey. Just one inch of recharge in over a year of rainfall, over most of the world/ less than in this state. **Do you really believe the aquifers we are all dependent upon/ are not being drained?** When trillions of gallons are poisoned each year/ **trillions of gallons are pumped** into old oil fields to produce oil and natural gas/ **trillions of pounds of toxic waste is pumped into area’s close to aquifers and can explode out of containment at any time destroying that aquifer forever (or an earthquake, releasing it).** **Trillions of gallons lost** to ethanol production/ **trillions lost to the production** of poisons. Or garbage dumps built right on top of the aquifers. Did you know trillions of gallons of water have been lost from the upper great lakes? **We CAN thirst to death/ and we CANNOT replace this water.** People will war/ lose their ability to spread out, and condense into chaos, and hell on earth; while they die.

8. Did you know, that according to yearly fuel consumption statistics **we burn enough fuels** as a world **to consume more than all the yearly oxygen this planet produces.** We know how much fuel we burn, because we sell it. We know how many forests burn, etc/ and how much oxygen each of these fires consume. Based entirely upon this projection of air by volume, necessary to burn these fires; **the first 200 feet or so of atmosphere is required, and all the oxygen in it. And neither you, or any animal has yet to have a breath of oxygen for yourself.** People will wish they were dead. Did you know, that an experiment “for space travel” was done in the desert some years back; a greenhouse sealed over 3 acres (I believe) all kinds of plants, a water fall, “everything expected to be needed and more”/ with 5 people who were suppose to live in it for years. **They broke out in months, because the oxygen content had dropped too low.** In other words this is a statistic we can investigate; a reality of living and life we cannot ignore.

9. Did you know, that a portion of base food supply of nearly all life in the ocean was

being taken for livestock feed. Every living thing in the oceans; on this planet, are dependent upon the chains of living creatures that feed us all. Every life, is under threat of extinction do to the practices of men. These creatures help supply our oxygen too. And the ice shelves which grow or support much of this life, is disappearing. When the ocean is dead, or past the point of recovery: what will you breathe/ one in six people won't eat anymore. People die.

10. Did you know the ocean contains a million square mile garbage dump filled with plastics/ or that thousands of miles of ocean shore is dead because of agriculture and city pollution. All or nearly all of the various incubators of ocean life have been devastated, across this world. Or every year, major releases of oil are lost into the seas. Important to you, because without this food, a billion people will go hungry; is that not war coming? The food distribution network "ocean currents"; around the entire ocean is stopping, due to global warming. These ocean currents; Which also keeps the European communities warmer than otherwise, "delivers food throughout the sea"/ and supplies directional "mapping" stability to all ocean life. Without a food supply for the ocean, or currents in the oceans, or the ability to know where you are/ due to global warming; we will go hungry too. Because without delivery, "the grocery store for an ocean, goes empty". With these creatures dead/ you die too.

11. Did you know that one trillion dollars is equal to 50 million workers times \$20,000.00 dollars per each one. The economic stimulus plan has already spent 3 trillion dollars/ which equals \$60,000.00 dollars of numbers put into the hands of banks; per each of 50 million workers; which they multiply "times ten". Therefrom we understand: those people with access to lending, **NOW HAVE \$600,000.00** six hundred thousand dollars, in available funds: representing, **PER each of fifty million workers**. This is, "free money, to the wealthy": to use against you, in buying every foreclosure, every bankruptcy, anything they want.

Can you compete? No, you cannot. **They redistributed our wealth/ and gave it to the rich man: giving us his debts instead! That is criminal fraud, and outright theft.** This is an economic give away to the very rich/ who will get richer, and steal an entire nation within the next two years. Did you know, plans are to spend 12 trillion dollars of new additional debt, by 2012; Given to banks, multiplied by 10, **that equals 2.4 million dollars in new money to the few** who will be allowed to borrow it: **PER EACH of 50 million WORKERS, in this USA**. This is a Criminal conspiracy, and a detriment to every worker. Can you compete with someone who has been given 2.4 million dollars to spend, in "free money"/ provided to them. Can you compete with government employees who claim, its **YOUR PUBLIC DEBT**.

But a debt that cannot be paid/ is just inflation: isn't it! No only political patronage, for the wealthy; a pecuniary loss to every worker; **it is an adverse and hostile possession of our money.** Which means they have been inflating money to GIVE to the rich; in america/ while giving the workers nothing but lies. Inflation that does not include everyone means: There are MORE FREE numbers for the wealthy. But NO more numbers for the worker/ **robbed without a gun.** That is our reality!

The regulation of our money, has been given over to others WITHOUT truth in lending provided to ourselves. **They lent themselves our money/ they stole the value out of the money we possessed/ and they gave those funds to others, handing us the debt: and saying nothing about the fraud.** Our employees sold our property. Our employees gave away our jobs. Our employees transformed this nation from “rich, into poor”/ to satisfy greed and selfishness and failure. Giving us threats, which can easily exterminate our very lives instead.

In america where the “government employees” gave the rich, the money (numbers): **OUR WORK, we did do, in exchange for OUR lives!** They did in fact, add a debt load of sixty thousand numbers (dollars) to every single worker/ 50 million people; in this last year. (*The probable reality at this time no more than 50 million full time/ and 30 million part time workers*). MORE than the average yearly wage of an american worker: **YOU HAVE LOST over half the value of the money you hold already, in one year. Because there is twice as many numbers called dollars as there were last year.** Did you get yours? **Debt is just a lie (NO REALITY), used to swindle you; it is a thief used to steal an entire nation.** Help for only “a few rich, so they could steal more”/ while everyone else, is left with nothing but a gun. Is that not civil war, in just two years? The beginning of hell, because it can spread across this world: People will die, because of this failure.

12. Did you know our resources as a world are nearly gone; ransacked and ruined/ thrown in the garbage for the sake of “a job”/ for MONEY(*promises only as good, as the integrity, determination, and health of the ones who made it*).

Yet we cannot live without resources/ money be damned, no resources literally means: NO LIFE. Simple as that. This is not an infinite world, we WILL soon run out. We would already be out of one of the three fertilizers that made food production bountiful, if more had not been found? What happens when that supply is over? How much is lost, to a damn yard, golf course, etc What will you do, when that, or any other critical resource is gone? The answer is people will die.

13. Did you know: global warming does exist/ ecological chains of life are disappearing/ environmental disasters are being created/ oceans are rising/ deserts are increasing/ the ozone (*excess oxygen supply*) is disappearing for real/ species are

becoming extinct/ terrorists are multiplying (*people without hope, assume “you killed me/ so I kill you”*): etc. Not to discount contaminated water, sewer diseases, genocide, etc. Not to forget, you cut down trees creating enough board feet to reach far beyond the moon, and more every year/ completely unsustainable; necessary for oxygen production and life: **completely insane.**

Leadership decisions: CHOOSING WAR, because they are forming a world at the brink of collapse, creating demands that cannot be met. Your leaders chose: not respect anything/ to steal from tomorrow, for the want, gluttony, and selfishness of today. You chose to let them/ you followed, choosing not to build for life. You chose not to care about reality or truth. You chose only money first! **And people will die, because money means nothing, in a world without hope, resource, or possibility of survival.**

14. Did you know, that a mere 25 nuclear weapons detonated around the world are expected to be enough to kill life on this earth? There are more than ten thousand, and that is just what your told: “in a world full of liars”. Did you know, the biological weapons of mass destruction are expected to kill over 97% of humanity. Specifically these genetically altered & mutilated diseases, “re-engineered by men:” **to avoid biological immunity. Means: One broken vial, and no humans left on earth/ because the dead bodies alone, will finish the last.** As was true in India, the “Bopal (wrong spelling?) disaster”: the chemicals which surround you, can easily take your lives away/ can easily become weapons of mass destruction. Called your saviors, called your protectors, all these weapons of mass destruction are merely waiting; for one single excuse in men: to kill this entire world. **And you are so gullible you believe/ “they protect us”. SHAME ON YOU. This nation, shall organize and demand: NO MORE OF THIS HERE/ we will choose world law and policing instead. And pay the price required to build and sustain that law.**

15. Did you know, that at www.justtalking2.info there is a US supreme court case docketed as 08-1339 demanding a first amendment redress of grievances trial. The primary question presented to the court, a very simple: **WILL YOU OBEY THE LAW?** Because the law says: we the people have rights, and this forms an accountability demand, from government employees. **In uniform conspiracy**, your leaders chose (*check the list of defendants*) to abandon the law. They chose instead of constitutional law; to stand against that law; accepting the potential penalty of impeachment, and the accusation of traitor & treason instead of othe law. As did every lower courtroom, also defile and disobey constitutional law, in this and other trials throughout the years. Listed in www.justtalking.info and www.justtalking3.info and www.trialforlife.info abstract of cases. **IN THIS CASE:** A clerk of the court

sent “dismissed”/ which is **criminal fraud; as only a judge can dismiss a legally docketed case**. Your supreme court defied you. Your supreme court/ your attorney general/ and your president: chose against the law, and conspired to steal and murder your rights under the fourteenth amendment FOR DUE PROCESS, owed and guaranteed each citizen of this USA. Intentionally: Attempting to destroy the first amendment redress of grievances. Your president, solicitor general, and attorney general/ even the governor of IL/ each judge of the supreme court; said nothing, and were litigants. **Nor did your journalists, or media make you aware**; “Quiet as a mouse”. Even though sent information, and made aware by me & because **what becomes a docketed case in the US supreme court, is accessible and found, by the media**.

Did you know that federal debt as is reported in the media is just the federal deficit: and it **does not include** state debt/ or personal debt/ or business debt/ or financial debt/ or agricultural debt/ ETC: or all the bonds issued, by every little government agency that can. Did you not know that all of social security funds are federal debts/ but no longer counted. Thereby **creating the LIE: to claim a balanced budget** under Clinton. Even though the federal government claimed the money, by fraud/ giving us the people, debts instead. Adding roughly 60 trillion dollars in current social securities debt: means with 13 trillion reported: **ADD UP TO, we are 73 trillion dollars in just FEDERAL debt** as a nation. Did you know the www.federalreserve.gov Flow of funds site used to report the accounting record and lie. Their figures extrapolated from the time of change until today: would state, we as a nation would have crossed the line of 100 trillion dollars of debt/ by the end of 2007, but not to worry their claim was “we have 120 trillion dollars in assets”. But divide it by 300 million people, and that equals \$400,000.00 in the bank per every man, woman, and child/ every citizen in the nation, divided equally. You got yours? They removed the site when I reported, to many media outlets: these accountants, of federal debts/ ***moved 3 trillion dollars from the debt column to the asset column in one week***. A change that would have been of interest to the public/ but not one peep out of media. The site was changed, to propaganda: to take away all such information. You are led by liars. You are protected by thieves: “they care about the money more than you, or this nation”.

The US supreme court says, “unimportant”. The leadership says, “debt don’t matter”/ UNLESS its yours. Are they telling you the taxpayer, “no need to pay”? Did you know that Ronald Reagan sold all your gold, and MORE: to finance his “new deal”.

Without change, we are “a dead economic reality”. Which means: *every*

foreign investor on earth is going to try to take whatever they can/ to their own part of this world. Leaving this nation empty, except for weapons and hate. Does this not sound like public upheaval coming. The price is civil war/ dead men/ raped women/ mutilated people and children.

16. Evolution is just a religion (can't prove anything of importance). Promoted and in control; through your government: they infiltrated everything. Just another theory; their evidence nothing more than a guess, another con, or a sham. Their assertion: beginning of life "just, hocus pocus, or whatever fool you wish to believe: the essence is, we shopped/ we wanted/ and we took it for ourselves". **Can't prove anything/ which means it is religion!** But people believe, because its "the university; a religion in itself". As a reality: just another damn cult; who got control over your children/ by taking over government.

The university says: *a genetic code so elaborate it not only builds a body, creates the utilities necessary for that body, adds a mind, creates bones and joints and valves and blood and services to support, and gives the fundamental knowledge to exist at the beginning (such as breathe/ heart beat); and much more. Is just an accident/ evolutionists say "microbes without a mind, built you". Yet the entire body represents clear and sustainable thought.* And you believe lies, SHAME ON YOU.

They tell you "Noah's flood" did not exist/ **yet the evidence is absolutely clear: the only possible way the coal, gas, and oil reserves (buried plants and animal carcasses) at depths ranging down to thousands of feet/ all buried at once.** Could exist, is if a massive flood changed the face of this earth. NOT a biblical story, the evidence of earth! Your university has been made aware/ and they refuse blatant undeniable truth. Or more simply, as has been proven without doubt: NO RELIGION, including evolution, or the stories, fantasies and delusions of university: belongs in government. **This is constitutionally forbidden and must be removed/ eradicated from educational teaching.**

16. Any self-replicating consequence of human engineering as has been done with nano-technologies constitutes a very distinct threat against this biological world. As structures that mimic and conform to the base descriptions of a life threatening disease, virus, or potential epidemic/ pandemic/ or various other biological interference. IS A THREAT! **Man made objects that can interfere with biology in countless ways.** Is subject to distinct review, and decision: as to the credible threat we face as a people and world. **Can't be wrong/** lives are at stake.

ARGUMENT BEGINS:

YOUR university built the decisions which we now face/ they propagated every facet of a courtroom in shame/ a government of liars, a business and industry without respect/ a pollution and weapons and mutilation to end life. They even changed public education to deny children the right to be prepared for life. They deny equal and fair play: by NOT educating the children on financial concerns, health as in medical care, or anything else of value/ such as the majority can use in their lives. Choosing to make puppets, present fear of not getting into college, and hypnotizing the young with want: to participate in greed instead of growing respect for life. Creating a failed state, with only them, the university, as “valued”. And describing the rest as, little more than their slaves. The university says, “we are great”/ but **what truly have they contributed to life**, apart from toys? The answer is harsher warfare/ with antibiotics, and vaccines: overpopulation that now threatens to destroy an entire world. Communication, the means we CAN: either to be a true democracy; or die, with propaganda and lies, leading your way.

Shame on you for worshipping them/ they are not gods; the tiny bits done by the university to benefit you are like a candle to the sun, against what has been done to destroy you. WAKE UP OR DIE. **“Not hate for university/ but a return to honesty, truth, and reality. NO MORE DAMN FANTASY, STORIES, or other LIES or GAMES”!** No more, let them lead us to our destruction! **Life first,** NO more: arrogance, idiocy, stupidity, or ideology (worshipping images) etc. Shame on you.

*The reality of social change is very simple; the historical record (thousands of years) proves, “either you kill the leadership and their support” the historical solution. **THIS FAILED FOR EVERYONE, as history proves, it solved nothing!***

OR

The alternative: YOU CHOOSE THE LAW, AS WE THE PEOPLE; WILL DECIDE OUR OWN FATE, OUR OWN LAWS, OUR OWN REALITY, OURSELVES.

This is the foundation of constitutional government called America! The enforcement of that law, is democracy. The failure to enforce constitutional law, is DESERTION OF DUTY.

The reality of today is, that democracy in america; has in fact, been supplanted with the tyranny of money, power, selfishness, and greed. Thereby it is essential to apply redress of grievances, and reestablish “we the people”, ARE the owners here.

Proving instead of them “who believe, they rule over us”/ we will rule over ourselves.

Every threat, that has the potential to be devastating to this state or nation/ this city or world: exists as a cause under the preamble of the constitution to demand OUR EMPLOYEES MUST fight for us/ MUST protect us as they promised to do/ MUST BE fair, legitimate, and just, under the guidelines of the constitution. **The basis and foundation of all law and every authority.** The authority provided to any elected official or representative of the people, that they must give oath to, obey. **Instead of what we are owed, as a state or nation/** as citizens of this place on earth: **our employees have** allowed threats which can exterminate us/ have allowed theft to consume our property, securities, our rights, and our future. Have allowed religion to overtake government. Have allowed the courts to disobey and ridicule constitutional law. Have allowed the seizure of media by just a few “rich”. And have failed in every sense of the word, to sustain this United States of America as they were intended to do. As the preamble to that constitution declares we are to be.

That means under eminent domain, “the right of the masses IN DEMOCRACY, to protect and provide for themselves/ regardless of the objections from a few”. THIS IS the inherent attribute of sovereignty (the right of a ruler). As WE THE PEOPLE. we demand REDRESS!

OUR DEMOCRACY, MEANING WE THE PEOPLE ARE “RULERS HERE”! **Now it is our turn to make the decisions that matter! BECAUSE WE ARE THE OWNERS OF THIS NATION. The owners of OUR LAW, UNDER THE CONSTITUTION AND FIRST AMENDMENT REDRESS OF GRIEVANCES!**

Which means: Either we are,
“DEMOCRACY, we the people, FOR REAL”/ or we are not.
There is no middle ground.

Either the people are rulers here, the sovereign authority of this nation/
OR not. It’s a choice/ Make your decision!

WE Do Demand: that our policing agencies shall in fact create the necessary acceptance of their duty/ bringing the guilty, before the people. Those who threaten/ lie/ cheat/ steal/ manipulate/ control without rights/ and fail to obey their oaths. WE DEMAND; our right, TO REDRESS OF GRIEVANCES/ ACCORDING TO THE FIRST AMENDMENT.

Redress is a legal right/ the first amendment is the law that provides “power to the people/ to demand we are owners, and shall be accounted to: by our employees”. Democracy means: that true and real authority is entirely ours, and no one else/ we

are the owners, & this is our nation!

That action by the police, the military, all leaders, and the courts in unison: in the presentation of this “redress trial” to WE the people. IS then required. With the advertizing necessary, to insure all, the people know! That a state jury chosen by random, shall decide if this decision to demand true authority, and accountability from our employees shall proceed, or not/ is the only fundamental required to begin the process. Redress is built from the people up! It is not descended down from the top.

If YES, the people of this state agrees. The trial as filed, must then be presented to each subsequent state for their own decision. Majority rules both for redress in this state, or in this nation. Redress for this state or nation, IS a serious matter/ no place to hide: YOU become responsible for your decision. If no, this case is over, for the litigant representing it. Any majority of states who do agree among themselves by a majority of their own people. Bringing redress forward for themselves. SHALL reinstate that or any subsequent trial, as they demand by vote.

THIS US SUPREME COURT TRIAL: IS NOT PURELY REDRESS!
THIS TRIAL CONFRONTS THE COURT WITH THEIR OWN DECISION TO PROTECT US FROM TERRORISTS, OR NOT! This trial constructs a redress trial, as our right to protect ourselves because of the threat that emanates from the potential destruction of our lives and even our planet. THIS TRIAL, is of immediate consequence/ and CANNOT be dismissed or delayed: because of the potential for death and destruction in this nation. WE DO DEMAND THIS REDRESS TRIAL, because the court, our leaders, the media, and university HAVE FAILED to protect our lives. **It is not an option: without the term TRAITOR proven to arise!**

NOT a trial over the fundamentals of “scientific threat”, or any other. A trial distinctly provided by the Constitution: to establish accountability/ ownership/ and a decision by the pure vote of the people themselves regarding their government and themselves. **To determine the truth about THE RISK TO OUR LIVES, OUR NATURE, OUR WORLD: those threats that can exterminate, destroy, damage, or cause consequences of TRUE harm to us: and this world.** THIS TRIAL: is **To decide what our future will be/ or not, for ourselves! As best we can.**

WILL WE DEMAND THESE THINGS, or will we not, is the people’s choice. Will we demand a courtroom, and all that goes with it: is a constitutional duty/ that

cannot be undone without the term TRAITOR. To understand, investigate, and examine every threat, and problem stipulated, or not; is a choice of the people/ it is not a choice of the court. This trial HAS been made known to you, its risk established/ its foundation in the law proven DUE PROCESS rights. To establish risk, and end the gambling with our lives, or not; is the people's choice. Are all fundamentals of this trial for life.

This is a legal demand/ but also a constitutional foundation **which goes beyond the limits of this nation, and encounters the world: because we do not die alone.** They too: shall be entitled to their say, on any matter threatening them, within that courtroom.

The only decision that can be made apart from immediate trial is: **a FULL AND COMPLETE moratorium** on every count/ EVERY conceivable threat, SHALL BE ESTABLISHED IMMEDIATELY. And shall not be rescinded for any cause! So the people can have time to establish their vote on redress or not. Should their decision be yes!

Then in the matter of all threats, the reality of trial is NOT “scientific evidence or presentation or theory”/ **BUT RELIES UPON ONE SINGLE CONSTITUTIONAL DEMAND. *WE SHALL BE GUARANTEED SAFETY AND SECURITY FOR OUR LIVES, AND NATION, OUR WORLD, AND EVERY CHILD: or we will decide by vote as a people, IF ANY THREAT, OR ANY PRACTICE will be allowed to continue.*** We will decide the future of this nation, our laws; ourselves.

Or more simply, as is the preamble to the constitution itself:

“We the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America”.

Within this “governing body of words, its amendments, and the rules of behavior required to be upheld by: our employees”/ the United States government exists.

By the incorporating words of both the Declaration of Independence and the Bill of rights: we understand, what the people who built this nation=sacrificed lives, body, and family for this nation: believed DEMOCRACY would be.

But make no mistake: as one people united, WE DO, have our own say as to

the future, structure, “ways and means”, and laws which govern our lives today: demanding DEMOCRACY as the means of our freedom, and our right of ownership shall be recognized today; just as it was in the beginning. We are the nation/ we are the owners/ we are the authority/ we are EVERYTHING this nation is, by our decision, by our educated (on the issues) vote, “you had your chance”. And by our military: “the sons and daughters, of/ or ourselves”. ***NOT a vote for someone to vote for me!***

My own vote/ OUR OWN VOTE: on the law, the war, the future, the governing, the court, the business and industry, and the reality of life today and forever. And more!
