

TO; THE IRS
from James Frank Osterbur

dated 8/19/ 11

RE: your letter notice CP71C dated August 15, 11: amount
now due \$12,897.92

as has been explained in past correspondence: the tax in question was withheld due to your own constitutional avoidance and disgrace. Consequently trials ensued, and laws established as is legal redress of grievances; which “you, the employees of government”, refuse to acknowledge or comply with. That is in fact traitorous activity, and the reality of anarchy in government by its employees. Constitutional law is not discretionary/ and you may or may not consent to it: the law is mandatory. As a consequence it would be “traitorous of me” to pay you for actions and reactions that are distinctly, not only a disrespect to we the people/ but does constitute an act of war against this people. Our constitutional guarantees ARE NOT negotiable, and you have absolutely no right to withhold them. Currently that issue, this tax, and those rights are within the US supreme court as trial 11-100. When it finishes/ then we will discuss what you owe me in contrast to what is said that I owe you. Doing your job: by demanding constitutional law shall be upheld is not free. Since you have failed in your responsibilities, I have had to consume a portion of my life fighting legally; because you disgrace us all.

Added to that, are the realities:

What is constant about that reality is simply this: AS IN ALL BANKRUPTCY, it is the “people owed the money”/ who shall bear the brunt of loss. The rest have none, therefore without outright slavery; there is no other solution. There is NO solution in American politics; as has been clearly proven in the debt crisis. They did nothing but blame the tea party for demanding accountability. They did not reduce spending, nor will they/ they have in fact increased spending by 2.4 trillion dollars over the next year, or a little more/ with absolute promises to spend an addition 7 trillion dollars over these next ten years: as one debt crisis simply becomes another debt crisis as each year goes by....While resources and even lives are lost, because they played the biggest pyramid scheme in the history of this world; and all america played with them do to their own greed; even the world itself. Check carefully at wall street for the worst offender: as there are literal reports of derivatives (buying debts; people agree to pay you back/ but can't) is roughly 600 trillion dollars; (their functional quote; “its more like buying a lottery ticket/ than money itself”) with another 100 trillion in various other instruments called stocks and bonds; they sell. That equals: ONE HUNDRED THOUSAND DOLLARS PER INDIVIDUAL HUMAN FACE ON THIS PLANET! Or more simply “its all, nothing but a lie”! With the US government (the money) participating in the forefront. Think about HOW MANY LIES, they had to tell, to sell this number/ HOW MANY “investigative reporters/ politicians/ and extra special smart people say, “they didn't have a clue”! THINK FOR YOURSELF!

Consider the federal reserve report, which says: americans hold \$154 trillion roughly: divided by 311 million citizens=\$495,

176.00 per citizen. Or more simply understand one out of every two citizens (babies/ prisoners/ and all) is suppose to be “a millionaire”. Divided into the equal; haves and have not category. NOW THINK about how much work and resources they intend to take from you; if you are not in the group with money. IT’S A GAME. Money is a game, when its just about numbers. Numbers without collateral, HAVE NO MEANING. They are just numbers, {promises to the wind}. Think about the truth of work, life, truth, and reality: then decide what is LEGALLY necessary and do it. That means redress of grievances as a courtroom to determine a true and accurate accounting, and removal of all lies. Otherwise; YOU GET NOTHING, but violence/ just death, mutilation, and misery. Do remember that, and work for life instead.

You “got yours”/ by taking ours: not earning it/ taking it. We will return the “favor”. Shall We NOT: give those responsible back, to those they ruined. You played a game/ but we the people shall make a choice! As it is our right to do, because we ARE the owners of this nation! All of us/ not just you! Such as the gun runners in US government who facilitated, giving weapons to Mexican terrorists: do they not deserve trial, in Mexico?

Without antibiotic (disease held back) feed, the entire livestock industry dies. We have no other methods left, to raise anything. It will be the end of meat/ eggs/ etc, for billions. Confinement agriculture will stop, without antibiotics: what then? A more deliberate picture here is, that antibiotic feeds stop an infectious disease from spreading, because it if is not stopped immediately by blanket methods such as antibiotic feeds; the entire herd, or

flock can be lost. These are not fed at all times, but more than enough to prove without them close confinement fails entirely.

Antibiotic resistance is nearly complete (ended), for us too.

Such is the result, "of easy/ I want to own it all".

The final sanctuary, for breeding stock we depend upon; in the arctic ocean, is now open / and "fish" will then be extinct/

numbers too small to matter. Thousands of ships fishing 24/7.

"At sea, till full". I must make a living & I WANT more!

The fundamental truth here is simple; human behaviors demand that it takes a navy to stop the march of men and machines in their goal to GET ALL THEY CAN GET. To get rich, by taking all the fish they can take. Nothing less than force will keep the international fishing fleets from gathering all the fish they can.

Simple as that. Without this last preserve, the numbers will die; we cannot replace them. Every year beyond this 2011-2012 at the most will see starvation increase. Because nature can no longer defeat your needs; unless you help nature itself survive.

World human population grows at 2 million per week . You want what you can no longer have, an endless supply of space and time to do whatever you want to do. This earth is full. Any true population increase beyond this point is death to us all: nature cannot sustain us, and that means war, cannibalism, and terrors beyond your imagination. Just how it is.

7 billion people; living on 7 billion acres of actual "growing land". One person per acre! Look around you/ the concrete/ land lost/ etc.

If you take the agricultural lands declared by each nation, it becomes a rough picture of how much land is available. From that cities, and more are removed, and we see what is left for our survival; AND EVERY other creature not in the sea, or

dependent within the sea upon what comes from the land. Oceans polluted and dying. The incubators of ocean life destroyed.

People who do not like the water, do not care about the sea; simple as that. "Doesn't affect me/ WHY should I care"? But the truth is it does, because we are so many people living today, because it is the oceans that have made it possible. Without ocean contributions to our food supply, roughly one in six people MORE than now; will go hungry. Without hope, without food, without the possibility to survive, because this food source for humans is lost: who dies first?

People ready for war.

People war with each other as "large groups" because they want more/ or they believe they have no choice: something has gone wrong with our situation, and since we don't want to die/ that means you have to die, so we can live; or have more for ourselves.

The ogallala aquifer, supporting roughly a billion bushels a year, is predicted to be empty in six years; dust bowl returns. This particular aquifer has been considered "without end" we can do anything we want. That has already been proven completely false, and yet tremendous amounts of water are extracted everyday for fuels, for completely useless endeavors, for a "few pennies more" in my pocket. And many other selfish and insane demands made by men. We must establish the windbreaks necessary to stop another dust bowl. We must stop all but the most necessary use of water so that we can eat a few years longer. We must prepare for what you have done, because we have no choice left. Not a game anymore.

Scientists say: ONLY one inch, in fifty inches of rainfall,

reaches the aquifer. Here too. Contaminated by toxins people introduce. Do you know how many toxins are pumped into the ground beneath your feet? Dumped above the water that you drink? Dependent upon biological creations to "clean it up" so that when it reaches the aquifer, you can then drink it: being poisoned, being attacked with your antibacterial soaps, pesticides, mutilations, etc.

The court and your leaders demand: we don't have to obey constitutional law/ because we did not consent 2257; even though it is in their sworn oath to obey. An impeach-able offense 08-1339. NOT democracy.. Not the people ruling2111 themselves by law!

Read any of the lawsuits (down the page) that I provide, particularly on this site and you will understand: the judiciary has made democracy and the courthouse "a game".

Scientists gamble "we can bring the same fire on the sun here/ and control it; but if they are wrong, we die". Happening "today".

This is not a small matter, on any given day, one tiny mistake or failure, and atomic fire could be born: everything here is fuel.

How is that not your concern?

University diplomas' Gamble: they can create "the big bang" single most destructive event in the history of the universe; and not blow the planet up.

This is not a small matter, the reality of energy being used, the consequence of things being done; establish the atomic mechanisms that control time are being dismantled. The physical laws we live by as planet earth, is being changed.

Energies we do not know, are being released; uncontrollably.

University arrogance and insanity, Gamble: they can mutilate

everything in nature, and we will survive intact? Fool? DNA IS NATURE, it is everything called life, mind, or body: by the consequences of discipline, balance, survival, or beauty. And much more.

The endless promise of university is, "WE WILL BE GODS". The endless reality is, "you CANNOT even control your own money, or society without war" how little is the possibility you can survive changing creation itself. The answer is: terrorism/ the Armageddon prophecy (nature in chaos) comes true.

Noah's flood is proven true: no other possibility exists to explain the oil and coal reserves.

Or more simply, the amount of these reserves proves a tremendous amount of living "materials" were buried in the same place, at the same time, even thousands of feet below the surface of soils. NO other method, than a world flood, could have destroyed so much, and buried so many in this way. It is absolutely clear that flood did exist. It is also absolutely clear, this earth WAS TEEMING WITH LIFE, at the time of that flood.

Evolution says "one piece at a time, we shopped and chose/ without a brain". Life says, what can you do without: "a heart/ blood vessels/ lungs....."? We do need all the pieces and parts, at once. Can you exist without a liver/ kidney....etc?

Evolution is nothing more than a religion, whose primary priests reside in colleges and universities and American government politicians who demand "it's the truth"; even though they can prove nothing more than adaption (the evidence of "perfect

design") exists. Shame on you for accepting such trivial pursuits.

Can you exist without the trillions of gallons of drinking water lost for fuels?

Drinking Water: is not an infinite resource. What are you going to do when the "well runs dry". Just like your money, when the fantasy and delusion ends: **REALITY BEGINS!** That reality is war, because without water we can't survive. Wake up to the horror of what is being done, to everything you need as life on earth. Too late means your dead.

We can calculate the fossil fuels burned, fire created/ we know how much oxygen content is required; thereby we know, we consume more oxygen than this planet creates.

How is that not your concern? Just as is every other resource and reality of this earth under attack; so is the oxygen we breathe. Because fire demands oxygen too. We do know how much fossil fuels are sold. We know, there are forest fires etc; plus all the life using oxygen.

Everything that creates oxygen; lost / the trees under attack, creatures in the ocean , etc.

This is not a game, every creation that produces oxygen is under **HEAVY ATTACK**. Every trip you take with your car consumes oxygen, that life on earth then **CANNOT** breathe. This USA alone drives 3 trillion miles, every year! Every aspect of our atmosphere is limited, and we cannot make more; too late, is too

late; we die.

One trillion dollars = \$10,000.00 per each of one hundred million people. 3.8 trillion spent for this year is \$38,000.00, per each of one hundred million people. That is the math; that is stealing (federal reserve chart), that is communism.

Our human reality is: people want slaves. Plain and simple; to accommodate this demand, all manner and methods of enslaving the others is used. Although the methods change from time to time, the reality never goes away. People want to be "rich"/ which simply means: "To enslave others, for my own personal demands". The current means is simply to create numbers without substance, because so long as the people accept them: "monopoly money works just fine". (they make numbers/ we make sweat, tears, and sadness, because we don't get to share).

That is inflation hidden from us.

Debts that cannot be paid, are inflation; unless you just want to call it outright theft. Inflation is taking from the others, because you can as government employees "give to yourselves/ or your supporters" all the numbers. Which is simply saying: let the masses fight to survive, nobody cares. Regardless of the propaganda. Happens in every nation/ throughout all of history.

The pollinators are nearly extinct. Poisoned. Few fruits or vegetables/ no birds, reptiles...a link in the chain of life missing.. Like the key in a car, where do you go?

Seems small, but it isn't! And these are only the beginning.
Www.justtalking3.info Asking you to care, advertise/ etc!
Every child does, its their life. A humanity intent upon sterile
plants, no responsibility, everything free.

There is more. Such as climate change: its cooler than expected,
because when ice melts, to consumes heat (makes your glass
cold). Such as biological weapons of mass destruction are said
to be over 97% effective. Such as, the ozone hole does matter,
because radiation similar to nuclear exposures will happen. Too
late simply means war (I WANT more)/ cannibalism (nothing
here to eat, but you)/ extinction (too little, too late). For you too!
Not a game. Life or death a future decided for us all, today. A
future determined by every person who can make a difference.
You want to hate me, and do. But it is your own lives you curse/
not mine. It is your own future you deny, not mine. It is your
own failure, not mine. I am irrelevant/ because only you can
change yourself. Paid Ad

The reality of these truths, the consequence of what it means to
be wrong: proves, "that I will begin again".

The evidence of a need for WORLD LAW/ thereby the end of a
humanity at war: is absolutely necessary.

I am due, WE THE PEOPLE ARE DUE: our day in
court! To prove who does own this nation.
