RE: I am directed to you, by the office of the legislative inspector general/ as he wishes to hide from constitutional law; and protect the people who are charged with a sworn oath to obey it, protect it, and respect the people of IL by enforcing it through the laws that they have already made: as is the constitution of IL itself. Thereby discarding the people/ their purpose in hiring a legislature/ and paying the price for their employees.

Nonetheless, as inspector general over the attorney general office itself: **this does in fact fall to you, as a matter over which jurisdiction cannot be avoided.** A summation of the offense involved is provided in the associated papers. The complaint is: criminal misconduct, and literal defiance against the people, & the law, of this state of IL. By the attorney general's office/ particular executed or conducted against me, and the people of IL by a deliberate and undeniable refusal to obey, honor, or respect the constitution of IL, and its fifth

amendment as a guarantee to this people. That is a traitorous act, in absolute defiance of this people and their agreement to unite and protect each other under constitutional mandate, as a state. To be united under this document as one people here, is not a game. It is NOT “a discretionary law”/ it is NOT a matter of judicial decision/ there are NO RULES, which allow this miscarriage of justice: no judge is allowed to disavow, or disgrace the constitution either. IT’S THE LAW, plain and simple, an unavoidable truth! And that means it is literally a criminal offense to deny or avoid or pretend it does not exist. A traitorous act, in direct contradiction of any and all oaths of office so involved.

I do not argue, that Mr. Grant does this on his own/ nor do I argue that the judge in question fails, on his own either! Rather deeper levels of authority, or more correctly the power of money; **are ruling here**, and the realities of conspiracy, corruption, and collusion are evident/ the power of an illegal force: dictating and controlling government here: **INSTEAD OF OUR CONSTITUTION** as agreed by the people. As these two primary figures have nothing to gain, and everything to lose, by failing to obey the law. **That leaves us with “traitors/ rebels/ and thieves, hiding in the background”.**

In response to this corruption and conspiracy against our democracy, I have demanded of **HIRAM GRAU; head of the state of IL police:** that he shall in fact be involved; and not only arrest Mr. Grant for betrayal of the citizens of IL. Acknowledging contempt of court by refusing to acknowledge constitutional law/ a treasonous act against, we the people. But also the foundation offense itself, called treason: to

deliberately act in ways that intentionally destroy the power of this democracy, the reality of our ownership/ our government called WE THE PEOPLE, who do rule ourselves by the law we create. The unity granted, the protections demanded by the constitution: for this people. For breaking his oath of office, denying the law: is an act of war against this democracy, he does know better. The reality that his position demands of him, is NOT unclear. For he is not the law, and whosoever corrupts him, does so with his consent.

To date Hiram Grau has made no response. That fact brings to mind: **another, potentially entrenched in this conspiracy to deny the people their constitutional guaranteed right as well.** A reality of people in powerful positions: **colluding, conspiring, and corrupting each other against this people called ILLINOIS.**

Either we all obey the same law, as it is written in the constitution/ or the constitution fails. This is not a rule, whereby minimal matters are dispensed with. **THIS IS CONSTITUTIONAL LAW, a guaranteed right to each and every citizen in this state. A demand made upon the employees of this state,** and is upheld as punishable by oath/ because it is a crime against the people. When our employees fail; when they do not, **obey our law.**

That means, it is your duty as well: to institute and create an investigation, to discover the traitors within our midst/ who do, and did seek to destroy our democracy, “from the inside out”. ***By controlling the courtroom with fraud,*** with tyranny (*they cannot legally simply refuse to acknowledge the law, thereby claiming it does not exist*). **That is an act of war,**

**against this people: because it is our power as a people, TO  
RULE OURSELVES:** to intervene and control our  
government, our future, and our destiny by our own vote our  
agreement which is the law of this land called a constitution.

*The question is: what do you intend to do about the people  
you are in charge of/ the oath of office you took to honor,  
respect, and obey the constitution? Because the evidence is in  
MANY courtroom cases/ which makes it irrefutable, undeniable,  
and absolute.*

The issues of taxation in this matter: DOES participate in  
this/ as it is absolutely clear. Those employed, BUT who refuse  
to do the job for which they were hired: **absolutely need not  
be paid/ nor do they deserve ANY promise they created for  
themselves, or expected as a servant of the people.** That is  
the price of war, against us: WHEN YOU LOSE. Copies have  
been sent elsewhere: my site for this is [www.trialoflife.info](http://www.trialoflife.info)
