The appeal of case 2011 TR 022442

DATED: 6/ 7 / 12

APPEAL # 4-12-0429

MOTION FOR IMMEDIATE decision
on the demand by Champaign county court/ for payment, PRIOR to the conclusion of this appeal.

The argument is: their finding in trial 2011 TR 022442 is a conclusion of law/ but not a finding of fact: as the value to society as a democracy, is reached through justice and fair play. These were removed from the juries decision/ thereby tainting the jury and condemning them to a rule that bears no resemblance to freedom or the guaranteed right: WE SHALL NOT be ruled, as a people. Rather we are the owners here, and every jury has a DUTY to protect that truth.

This champaign court attacks my drivers license/ as my basic work is to move from place to place: for the repair and maintenance of "broken, or failing things". That simple fact, becomes a travesty of justice, a rebellion against the fourth amendment, and a contempt by the court: where ninety five percent compliance, and absolutely no threat raised: with a rule has been verified as fact. THEREFORE it is, the intent for oppression. The deliberate control of the people by establishing the intent to create fear.

REMOVE THIS FAILURE of the court/ or prove that I must pay the fine today, even though this matter as is proven by this appeal: HAS NOT been settled yet.
