

THIS IS, “the I AIN’T YOUR DAMN PIGGY BANK,” petition.

**Its purpose is to establish the difference between fair and legitimate acts and penalties of being governed/ for the sake of society.** And the reality of current practice which is, “the employees taking all they can get”/ just because they think they can. ***The method is REDRESS of grievances, A CONSTITUTIONAL LAW; giving us the right to govern ourselves, as we decide, through a courtroom.*** By removing the employees, and making the BIG decisions, by our own vote. NOT someone voting for me/ MY VOTE, counting as one, as we build the law, and decide the future which will govern our lives. Thereby taking control away from “the employees”. And **returning it to ourselves.** [Www.justtalking3.info](http://www.justtalking3.info) will help you understand. [www.trialoflife.info](http://www.trialoflife.info) Chatroom to assist. **sign and go find “the others”.** So that everyone knows, this ain’t no game!
