St. Joseph, IL 61820

V.

UNITED STATES OF AMERICA
STATE OF ILLINOIS et al.

MOTION

DUE TO, THE EXTREME EXPERIMENTS; being done at the nation ignition facility at lawrence livermore laboratories in livermore California “BY THEIR OWN WORDS, GOING TO CREATE THE SAME FIRE AND CONDITIONS, AS ON THE SUN ITSELF.” HERE ON EARTH, AT ANY TIME. Which means this is an IMMEDIATE CONCERN FOR US ALL. This is not a guess/ NOT A GAME/ and not without knowledge. There is media presentation/ their own web site, describing more than this: Web search nif.

The consequence of that experiment cannot be underestimated. Because we can plainly see, the entire sun has propagated that same fire across its entire mass. While this laboratory suggests, “it understands/ and that cannot happen”. The fact is, that because the very word experiment means “DON’T KNOW WHAT WILL HAPPEN”. There is no allowance for failure, as it could become the end of this entire world. Does a chemical fire not propagate. The term fire MEANS the bonds are burning/ NOT exploding as in an atomic bomb. It is NOT THE SAME.

THEREBY it is impossible to believe, that such experiments as these can risk all life on earth/ WITHOUT at a minimum, the entire nation and world, ACTUALLY taking a vote: If they will risk everything/ or not.

UNTIL THAT VOTE IS TAKEN/ this experiment CANNOT proceed. This is absolute contempt and bigotry against life on earth/ and failure to respect our lives WILL have consequences as WE THE PEOPLE learn we do own this nation legally.

Thereby the court is ordered to cause this laboratory to cease and desist its actions until such time as allowed by the people of this nation and world. The alternative of that would be to provide ABSOLUTE PROOF, that nothing experimental or unknown could happen/ and they cannot.
