

The initiating brief: for class action with regard to, “extreme experimentation.”

The function of democracy is: to give power to the people through their constitution as is the actual government, by contractual deployment of our rights to participate as a society or nation. Those elemental rights, which create the foundation for our unity as a nation or people across this world is written for this nations USA; as the preamble; which begins our journey as one.

Those words are:

WE the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this constitution for the USA.

There is no greater right, than the FIRST amendment: which legally includes “.....the right of the people to peaceably assemble, and to petition the government for redress of grievances”.

*More simply; we have the legal right, by foundation law; to interrupt what is being done; and by vote alter that existence as we see fit. **Because democracy means literally “we are the owners here”.***

The fourth amendment is: “the right of the people to be secure in their persons, homes, papers, and effects, against unreasonable searches and seizures shall not be violated.....”

*more simply: there is no greater violation of that foundation law, than to attack the very realities of life itself. As is found in nature, planet, water, oxygen, energy and all that life does need to survive. **Extreme experimentation: IS THAT ATTACK. And in most***

cases, past the point of no return, it cannot be turned back!

Therefore the assembling of signatures, from those people who are then by law, going to demand “redress of grievances” we don't like where this is headed. AND ARE DEMANDING BOTH INFORMATION AS IS EVIDENCE; TO PROVE THE COST OF YOU BEING WRONG, with our world, with life itself. BEFORE, we allow you to go any farther with threats, that can indeed and forever both affect and change our lives or our world; or cause extinction to exist.

WE OWN THE LEGAL RIGHT, TO INTERVENE: to claim a moratorium from the court. So that we the people can in fact review what you are doing from the facts/ not the theories or claims: and then determine for ourselves. WHAT WE WILL, OR WE WILL NOT ALLOW YOU TO DO, anymore.

Details and the collection of evidence for trial: come after the assertion: this petition proves a right to proceed, and claim the courtroom for ourselves, our nation, and our world.
